

Practice Questions Module 2 Net Worth

Note re review questions.

1. Answers to these questions can be found in the module. I will not be publishing a set of "answers" that simply restates material from the module, or tries to restate the material from the module in a shorter way.
2. Answers to M/C and T/F questions can be found at the end of this document.
3. If you are trying to do these questions before you have studied and learned the material in the module, it will not be an effective use of your time. You will simply reduce the scope of topics you are learning to those represented in this document.
4. After you have studied and learned the material in the module, use these questions to test your familiarity and ability to respond to these questions. This will provide you with feedback about how well you have learned the topics in the module. If you can answer all these questions, it can be assumed that you have additional knowledge from the module that did not get represented in this document.
5. Your teachers can easily make an error in the many materials we handle and update each term for multiple courses and sections. I realize such errors can be confusing to students. If you encounter a significant error (not just a typo, for example) and you are the first to report the error to me, I will add a mark to your next test or exam (not the assignment). For example, if you report an error in Module 7, your next exam is Test 2. If Test 2 is out of 50 and you get 41, I will change it to 42. I appreciate notice of errors! Use email to notify me, please. Nitpicking* also welcome (where would we be without perfectionists?) but no additional marks!

**Nitpicking definition: looking for small or unimportant errors or faults, especially in order to criticize unnecessarily.*

Personal Finance Bernard J. Winger, Ralph R. Frasca, 2006. The treatment of vertical intra-brand restraints is one of the most controversial issues of contemporary competition law and policy and there are substantial differences between the world's two leading regimes in this regard. In the US resale price fixing merits an effects analysis while in the EU it is prohibited outright. Likewise territorial protection is treated laxly in the US while in the EU absolute territorial protection due to the single market imperative is chased with fire and sword. *Justice of the Peace and Local Government Review*, 1909.

Introduction to Finance Ronald W. Melicher, Edgar A. Norton, 2020-08-28. Introduction to Finance 17th Edition offers students a balanced introduction to the three major areas of finance: institutions and markets, investments and financial management. Updated to incorporate recent economic and financial events, this new edition is an ideal textbook for first courses in finance, reviewing the discipline's essential concepts, principles and practices in a clear, reader-friendly manner. Students gain an integrated perspective of finance by learning how markets and institutions influence and are influenced by individuals, businesses and governments. Designed to impart financial literacy to readers with no previous background in the subject, the text provides a solid foundation for students to build upon in later courses in financial management, investments or financial markets. Equations and mathematical concepts are kept to a minimum and include understandable step-by-step solutions. Divided into three parts, the book explains financial markets, discusses the functions of financial systems, reviews savings and investments in different sectors, describes accounting concepts and organizational structures and more. Real world examples featured throughout the text help students understand important concepts and appreciate the role of finance in various local, national and global settings.
