**Science Education and Culture** Fabio Bevilacqua, Enrico Giannetto, Michael R. Matthews, 2001-10-31 This anthology contains selected papers from the Science as Culture conference held at Lake Como and Pavia University Italy 15 19 September 1999 The conference attended by about 220 individuals from thirty countries was a joint venture of the International History Philosophy and Science Teaching Group its fifth conference and the History of Physics and Physics Teaching Division of the European Physical Society its eighth conference The magnificent Villa Olmo on the lakeshore provided a memorable location for the presentors of the 160 papers and the audience that discussed them The conference was part of local celebrations of the bicentenary of Alessandro Volta s creation of the battery in 1799 Volta was born in Como in 1745 and for forty years from 1778 he was professor of experimental physics at Pavia University The conference was fortunate to have had the generous financial support of the Italian government s Volta Bicentenary Fund Lombardy region Pavia University Italian Research Council and Kluwer Academic Publishers The papers included here have or will be published in the journal *Science Education* the inaugural volume 1992 of which was a landmark in the history of science education publication because it was the first journal in the field devoted to contributions from historical philosophical and sociological scholarship Clearly these foundational disciplines inform numerous theoretical curricular and pedagogical debates in science education Contemporary Concerns The research promoted by the International and European Groups and

by the journal is central to science education programmes in most areas of the world

**Rethinking Science Education** Roland M. Schulz, 2014-08-01 This book presents a philosophy of science education as a research field as well as its value for curriculum instruction and teacher pedagogy It seeks to re think science education as an educational endeavour by examining why past reform efforts have been only partially successful including why the fundamental goal of achieving scientific literacy after several reform waves has proven to be so elusive The identity of such a philosophy is first defined in relation to the fields of philosophy philosophy of science and philosophy of education It argues that educational theory can support teacher s pedagogical content knowledge and that history philosophy and sociology of science should inform and influence pedagogy Some case studies are provided which examine the nature of science and the nature of language to illustrate why and how a philosophy of science education contributes to science education reform It seeks to contribute in general to the improvement of curriculum design and science teacher education The perspective to be taken on board is that to teach science is to have a philosophical frame of mind about the subject about education about one s personal teacher identity

*Teaching Science with Context* Maria Elice de Brzezinski Prestes, Cibelle Celestino Silva, 2018-07-25 This book offers a comprehensive overview of research at interface between History Philosophy and Sociology of Science HPSS and Science Teaching in Ibero America It contributes to research on contextualization of science for students teachers and researchers and explains how to use different episodes of history of science or different themes of philosophy of science in regular science classes through diverse pedagogical approaches The chapters in this book discuss a wide range of topics under different methodological epistemological and didactic approaches reflecting the richness of research developed in Spanish and Portuguese speaking countries Latin America Spain and Portugal The book contains chapters about historical events topics of philosophy and sociology of science nature of science applications of HPSS in the classroom instructional materials for students and teacher training courses and curriculum

*Education's Epistemology* Harvey Siegel, 2017 Education s Epistemology extends and defends Siegel s reasons conception of critical thinking developing it in both philosophical and educational directions Of particular note is its emphasis on epistemic quality and epistemic rationality and its concerted defense of universal educational and philosophical ideals in the face of multicultural postmodern and other challenges
