World trends in freedom of expression and media development: regional overview of Western Europe and North America UNESCO, 2014-07-14 [World trends in freedom of expression and media development: regional overview of the Arab region](#) UNESCO, 2014-07-14 [World trends in freedom of expression and media development: regional overview of Africa](#) UNESCO, 2014-07-14 *Freedom's Progress?* Gerard Casey, 2021-10-04 In *Freedom's Progress* Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in this book Plato Aristotle Machiavelli Locke Mill and Marx but you

will also find thinkers treated in Freedom's Progress who don't usually show up in standard accounts: Johannes Althusius, Immanuel Kant, William Godwin, Max Stirner, Joseph Proudhon, Mikhail Bakunin, Pyotr Kropotkin, Josiah Warren, Benjamin Tucker, and Auberon Herbert. Freedom's Progress also contains discussions of the broader social and cultural contexts in which politics takes its place, with chapters on slavery, Christianity, the universities, cities, Feudalism, law, kingship, the Reformation, the English Revolution, and what Casey calls Twentieth Century Tribalisms, Bolshevism, Fascism, and National Socialism, and an extensive chapter on human prehistory.

Freedom Beyond Sovereignty Sharon R. Krause, 2015-03-13

What does it mean to be free? We invoke the word frequently, yet the freedom of countless Americans is compromised by social inequalities that systematically undercut what they are able to do and to become. If we are to remedy these failures of freedom, we must move beyond the common assumption prevalent in political theory and American public life that individual agency is best conceived as a kind of personal sovereignty or as self-determination or control over one's actions. In *Freedom Beyond Sovereignty*, Sharon R. Krause shows that individual agency is best conceived as a non-sovereign experience because our ability to act and affect the world depends on how other people interpret and respond to what we do. The intersubjective character of agency makes it vulnerable to the effects of social inequality, but it is never in a strict sense socially determined. The agency of the oppressed sometimes surprises us with its vitality. Only by understanding the deep dynamics of agency as simultaneously non-sovereign and robust can we remediate the failed freedom of those on the losing end of persistent inequalities and grasp the scope of our own responsibility for social change. *Freedom Beyond Sovereignty* brings the experiences of the oppressed to the center of political theory and the study of freedom. It fundamentally reconstructs liberal individualism and enables us to see human action, personal responsibility, and the meaning of liberty in a totally new light.
