The Music of Wilhelm Friedemann Bach David Schulenberg, 2010 The first born of the four composer sons of Johann Sebastian Bach Wilhelm Friedemann was often considered the most brilliant Yet he left relatively few works and died in obscurity This monograph the first on the composer in English identifies the unique features of Friedemann's music that make it worth studying and performing It considers how Friedemann's training and upbringing differed from those of his brothers leading to a style that diverged from that of his contemporaries Central to the book are detailed discussions of all Friedemann's extant works the virtuoso sonatas and concertos for keyboard instruments the extraordinary chamber compositions especially for flute and the hitherto neglected vocal music including sacred cantatas and a remarkable work in honor of King Frederick the Great of Prussia Special sections consider performance questions unique to Friedemann's music and provide a handy list of his works and their

sources Numerous musical examples provide glimpses of many little known compositions including a concerto ignored by previous students of Friedemann's music here restored to his list of works Book Jacket Toward an Authentic Interpretation of the Organ Works of César Franck Rollin Smith, 2002 Franck's twelve major organ works enjoy a popularity which surpasses even that of his Symphony in D Minor This volume provides a guide to the interpretation of Franck's organ works by examining the extant first hand references to him as a student performer and teacher written by those who knew him heard him and studied with him Camille Saint-Saëns Timothy Flynn, 2004-03-01 A key figure in establishing an identifiable French musical style in the nineteenth century this annotated bibliography catalogs the studies of Saint Saens life and works as well as examining the composer's own correspondence and essays Included are many lesser known writings on the composer and his music as well as recent scholarship which re-examines his place in music history Pierre Cochereau Anthony Hammond, 2012 Noted organist and scholar Anthony Hammond tells the full story for the first time of one of the great organists of the twentieth century Described by his teacher Marcel Dupré as a phenomenon without equal in the history of the contemporary organ Pierre Cochereau is considered one of the twentieth century's greatest French organists This book tells for the first time the full story of his extraordinary life and glittering worldwide career In 1955 Cochereau was appointed Organiste Titulaire at Notre Dame de Paris where he restored the cathedral's musical glory and oversaw a far reaching and controversial transformation of its organ As a recitalist he toured South America Australia Asia Canada and Europe in addition to twenty five tours of the United States He was the first western organist to perform in the former Soviet Union played with many major orchestras under the batons of distinguished conductors participated in numerous music festivals in Europe made over eighty recordings and was one of the founders of the Chartres International Organ Competition He was honored several times for his achievements including being named an Officer of the Legion of Honor 1978 A tireless campaigner for standards in music education Cochereau also served as director at many of France's prominent conservatories including Le Mans Lyons and Nice which under his directorship became one of the leading music schools in France Biographer Anthony Hammond draws from a variety of prominent primary sources notably Marcel Dupré's papers in the Bibliothèque Nationale Paris but also from Cochereau's surviving family and friends and uses recordings and previously overlooked archive films in the Institut National de l'Audiovisuel France to construct this definitive account and critical appraisal of one of France's most distinguished organists Anthony Hammond is an English concert organist improviser and musicologist who specializes in French Romantic and twentieth century organ music Fauré and French Musical Aesthetics Carlo Caballero, 2004-03-11 A wide ranging study of Fauré and his contemporaries **The Pleasure of Modernist Music** Arved Mark Ashby, 2004 The debate over modernist music has continued for almost a century from Berg's *Wozzeck* and Webern's *Symphony Op 21* to John Cage's renegotiation of musical control the unusual musical practices of the Velvet Underground and Stanley Kubrick's use of Ligeti's *Lux Aeterna* in the epic film 2001 The composers discussed in

these pages including Bart k Stockhausen Bernard Herrmann Steve Reich and many others are modernists in that they are defined by their individualism whether covert or overt and share a basic urge toward redesigning musical discourse The aim of this volume is to negotiate a varied and open middle ground between polemical extremes of reception The contributors sketch out the possible significance of a repertory that in past discussions has been deemed either meaningless or beyond describable meaning With an emphasis on recent aesthetics and contexts including film music sexuality metaphor and ideas of a listening grammar they trace the meanings that such works and composers have held for listeners of different kinds None of them takes up the usual mandate of educated listening to modernist works the notion that a person can appreciate difficult music if given enough time and schooling Instead the book defines novel but meaningful avenues of significance for modernist music avenues beyond those deemed appropriate or acceptable by the academy While some contributors offer new listening strategies most interpret the listening premise more loosely as a metaphor for any manner of personal and immediate connection with music In addition to a previously untranslated article by Pierre Boulez the volume contains articles all but one previously unpublished by twelve distinctive and prominent composers music critics and music theorists from America Europe Australia and South Africa Arved Ashby Amy Bauer William Bolcom Jonathan Bernard Judy Lochhead Fred Maus Andrew Mead Greg Sandow Martin Scherzinger Jeremy Tambling Richard Toop and Lloyd Whitesell Arved Ashby is Associate Professor of Music at the Ohio State University

**"The Music of American Folk Song" and Selected Other Writings on American Folk Music** Ruth Crawford Seeger, Larry Polansky, 2001 This is the first publication of an annotated monograph by the noted composer and folksong scholar Ruth Crawford Seeger Originally written as a foreword for the 1940 book *Our Singing Country* it was considered too long and was replaced by a much shorter version According to her stepson Pete Seeger when the original was not included Ruth suffered one of the biggest disappointments of the last ten years of her life It just killed her She was trying to analyze the whole style and problem of performing this music Along with her children Mike and Peggy Seeger he has long desired to see this work in print as it was meant to be read The manuscript has been edited from several varying sources by Larry Polansky with the assistance of Seeger's biographer Judith Tick It is divided into two sections I A Note on Transcription and II Notes on the Songs and on Manners of Singing Seeger examines all aspects of the relationship between singer song notation the eventual performer and the transcriber In Section I Seeger develops a complex and well organized system of notation for these songs which is meant to be both descriptive transcription as cultural preservation and prescriptive she intended that others would be able to perform these songs In Section II she provides an interpretive theory for performance of this music and suggests how performers might make the songs their own through a deep knowledge of the original styles Ruth Crawford Seeger considered this work to be both a major accomplishment and a central statement of her own ideas on the topic Larry Polansky is Associate Professor of Music at Dartmouth College and a well known composer and theorist on American music Judith Tick is Professor of Music at Northeastern University and
