The 14 contributions set out to expand the remit of grounded history within the field of History of Language Learning and Teaching (HoLLT) by focusing on language teaching policies and linking these to practices and to contexts, situating policy formulation in particular contexts on the one hand and exploring the relationship between policy and practice on the other. In this sense the book shows how the theories, policy pronouncements, curricula, textbooks and overall teaching approaches which tend to

feature in most histories of language teaching always emerge from particular researchable contexts and in the other direction are interpreted and responded to in practice again in particular contexts In this way it hopes to contribute a context based perspective that highlights diversity of practices in opposition to received views that language teaching methodology is universal and context free Key Concepts in Traditional Chinese Medicine Li Zhaoguo,Wu Qing,Xing Yurui,2019-08-07
