*Customer-Driven Budgeting* Floyd Talbot, 2012-11-20 This comprehensive budgeting book emphasizes that the customer drives the business organization and processes and becomes the overriding purpose for a company's existence and success. Inside you will find a lot of details that sum up a complete guide that covers every step in the budgeting cycle from the basics of organization processes and funding to budget execution and monitoring. The author believes that the budget is the starting point and catalyst for gaining customers and that the budget prepares the company to supply the sales and marketing team reinforcements for giving a compelling reason for customers to buy from it. This book can be used immediately in business budgeting that presents you with a modular format starting at the beginning of the budget process and working through it entirely or select a budget area most challenging to the business and work from there to other areas of priority.
