### Full Feasibility Analysis

Drawn deliberately over the completed but previously unpublished report, the response to this questionnaire (8 pages of text responses) along with each of the conceptual models, is available on [www.fairchild.edu/technology](http://www.fairchild.edu/technology) and [www.fairchild.edu/technology](http://www.fairchild.edu/technology).

#### Introduction

1. Name of the proposed business
2. Name of the founder (or founders)
3. One-paragraph summary of the business

#### Part 1: Product/Service Placement

##### Market Assessment in This Part

1. Production/ies described
2. Production/ies desired

##### Assessment Tools

###### Concept Statement Tool

1. Write a concept statement for your production/ies (also, study the concept statement on [www.fairchild.edu/technology](http://www.fairchild.edu/technology) which will give you additional well-needed feedback).
2. Attach a sheet of card to the concept statement and ask the people who read the statement to circle any three things that they think your production/ies (1) provide three suggestions for making it better, (2) ask you whether they think the product or service idea is feasible, but not for commerciality, and (3) share any additional comments or suggestions.
3. Summarize the information you obtain from the concept statement into the following three paragraphs:
  - Strengths of the product or service idea—change people who considered your product or service concept and they “liked” about the idea.
  - Suggestions for strengthening the idea—suggestions made by people that thought about or improving the idea.
  - Overall feasibility of the product or service concept—report the feedback of people who think the idea is feasible, the number of people who think it isn’t feasible, and any additional comments they were made.
  - Other comments and suggestions.

**Soft Skills and Hard Values** Kerry J. Kennedy, Margarita Pavlova, John Chi-Kin Lee, 2022-11-07 To help researchers educators and policy makers understand and support the development of 21st century skills in schools this edited volume explores the various iterations of soft skills with a particular focus on their implications for values and evaluates ways in which soft skills and hard values can be integrated Discourse throughout the 21st century has focused on the changing nature of work the need for new skill sets and the disruptive effects of new technologies This has been a neo liberal discourse that subordinated personal and individual needs to the needs of a productive workforce delivering more and more efficiencies linked to higher and higher profits The solution is often seen to be in the development of a school curriculum that focuses on work ready skills for an increasingly complex work environment and its demands Agencies such as OECD and UNESCO highlight the need to link the skills agenda with complementary values Yet this process is at a very early stage The proponents of the Fourth Industrial Revolution 4IR for example highlight the impact of new technologies not just on work but also on the social world Yet they neglect to explore the values that would be needed in these new disruptive environments This book takes up that issue and lays out the multiple value systems that are available for this new 21st century world It is an important resource for policy makers academics and teachers with responsibility for a new generation

*Conducting Educational Design Research* Susan McKenney, Thomas Reeves, 2018-09-03 Educational design research blends scientific investigation with the systematic development and implementation of solutions to educational challenges Empirical inquiry is conducted in real learning settings not laboratories to craft effective solutions to the complex challenges facing educational practitioners At the same time the research is carefully structured to produce theoretical understanding that can serve the work of others *Conducting Educational Design Research* 2nd Edition has been written to support graduate students as well as experienced researchers who are new to this approach Part I describes the origins outcomes and generic approach Part II discusses the core processes of the generic approach in detail Part III recommends how to propose report and advance educational design research In addition to expanded treatment of research goals and practicalities more examples and attention to design based implementation research this new edition features enhanced guidance For each of the four core processes this volume offers assessment tools detailed behind the scenes descriptions of actual project work

examples of how specific theories have been used to enrich the work For decades policies for educational research worldwide have swung back and forth between demanding rigor above all other concerns and increasing emphasis on impact These two qualities rigor and impact need not be mutually exclusive This volume supports readers in grasping and realizing the potential of educational design research It demonstrates how rigorous and relevant investigation can yield both theoretical understanding and solutions to urgent educational challenges
