

Futurism

Shasha Hu

Futurism:

Futurism Caroline Tisdall, Angelo Bozzolla, 1977 An examination of the early twentieth century art movement and of its achievements and influence is supplemented by a wide selection of its artwork and excerpts from its various manifestos

Inventing Futurism Christine Poggi, 2009 Sumario Futurist velocities Folla follia futurism and the crowd Umberto Boccioni s The city rises picturing the futurist metropolis Photogenic abstraction Giacomo Balla s iridescent interpenetrations Dreams of metallized flesh futurism and the masculine body Futurist love luxury and lust Return of the repressed vicissitudes of the futurist machine Aesthetics under fascism

Futurism and Politics Gunter Berghaus, 1996-04-15 Futurism was the state of the Fascist regime this is the view one encounters in most books written on Futurist art and literature Whilst there can be no doubt about Futurist involvement with the founding of the fascist movement little is known about the internal relationship between Futurists and Fascists in the years 1918 22 nor about the reasons for the Futurists departure from the Fascist movement in 1920 or about Futurist opposition to and even armed struggle against the Fascist regime after 1924 Whilst the public documents testifying to Futurist support of Mussolini are well known little has been written about Futurist anti fascism camouflaged as official adherence to the regime This study based primarily on unknown or unpublished documents discovered in state archives and private collections presents a new and far more complex picture of the relationship of the two movements than has previously been shown by critics and historians The History of Futurism

Geert Buelens, Harald Hendrix, Monica Jansen, 2012-08-31 Futurism began as an artistic and social movement in early twentieth century Italy Until now much of the scholarship available in English has focused only on a single individual or art form This volume seeks to present a more complete picture of the movement by exploring the history of the movement the events leading up to the movement and the lasting impact it has had as well as the individuals involved in it The History of Futurism The Precursors Protagonists and Legacies addresses the history and legacy of what is generally seen as the founding avant garde movement of the twentieth century Geert Buelens Harald Hendrix and Monica Jansen have brought together scholarship from an international team of specialists to explore the Futurism movement as a multidisciplinary movement mixing aesthetics politics and science with a particular focus on the literature of the movement *Handbook of International Futurism* Günter Berghaus, 2018-12-17 The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement initiated by F T Marinetti in 1909 exercised a particularly noteworthy influence The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty eight countries While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia it treats Futurism as an international multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth century avant garde Hundreds of artists who in some phase in their career absorbed Futurist ideas and stylistic

devices are presented in the context of their national traditions their international connections and the media in which they were predominantly active The handbook acts as a kind of multi disciplinary geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact

Futurism Ara H. Merjian, 2025-02-03 Very Short Introductions Brilliant Sharp Inspiring From the motorcar to the radio modern technology radically transformed urban life by the first decade of the twentieth century As one of Western Europe's least industrialized countries Italy appeared impervious to such developments It was this state of affairs at which the Futurist movement took aim With its founding in 1909 the poet and impresario F T Marinetti called for a revitalization of aesthetic expression by means of movement and aggression A growing cadre of Futurist painters poets authors and musicians exchanged Italy's cultural patrimony for new technologies media and metaphors championing machine propelled speed and its salutary hazards Cubist painting collage and sculpture lent the Futurist campaign a revolutionary style to match its rhetorical fervor Yet whereas Cubism remained a revolution of artistic form Futurism sought to shatter the boundaries between art and life itself Indeed the movement's challenge to twentieth century culture lay not in any specific set of images or objects but a more comprehensive revolution of sensibility By the mid 1910s there circulated several dozen Futurist proclamations on everything from men's clothing to set design photography to film dance to politics That political impetus proved relentlessly paradoxical in origin and upshot From its base in Milan Futurist activity spread throughout the entire peninsula while related movements emerged almost immediately in Moscow Lisbon Tbilisi and Tokyo Prefiguring and then propagandizing Fascist imperialism Futurism also galvanized a range of progressive modernist phenomena More than a century later the activist model of the Futurist avant garde remains deeply fraught in its historical implications

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The Women Artists of Italian Futurism Mirella Bentivoglio, Franca Zoccoli, 1997

Italian futurism and the machine Katia Pizzi, 2019-05-24 This is the first interdisciplinary exploration of machine culture in Italian futurism after the First World War The machine was a primary concern for the futuristi As well as being a material tool in the factory it was a social and political agent an aesthetic emblem a metonymy of modernity and international circulation and a living symbol of past crafts and technologies Exploring literature the visual and performing arts photography music and film the book uses the lens of European machine culture to elucidate the work of a broad set of artists and practitioners including Censi Depero Marinetti Munari and Prampolini The machine emerges here as an archaeology of technology in modernity the time machine of futurism

International Futurism in Arts and Literature Günter Berghaus, 2012-10-25 This publication offers for the first time an interdisciplinary and comparative perspective on Futurism in a variety of countries

and artistic media 20 scholars discuss how the movement shaped the concept of a cultural avant garde and how it influenced the development of modernist art and literature around the world *International Futurism in Arts and Literature* Günter Berghaus,2000 This publication offers for the first time an inter disciplinary and comparative perspective on Futurism in a variety of countries and artistic media 20 scholars discuss how the movement shaped the concept of a cultural avant garde and how it influenced the development of modernist art and literature around the world **Futurist Conditions** David Mather,2020-10-29 Italian futurism visualized diverse types of motion which had been rooted in pervasive kinetic and vehicular forces generated during a period of dramatic modernization in the early 20th century Yet as David Mather s sweeping intellectual and art historical scholarship demonstrates it was the camera not the engine that proved to be the primary invention against which many futurist ideas and practices were measured Overturning several misconceptions about Italian futurism s interest in the disruptive and destructive effects of technology Futurist Conditions provides a refreshing update to the historical narrative by arguing that the formal and conceptual approaches by futurist visual artists reoriented the possibly dehumanizing effects of mechanized imagery toward more humanizing spiritual aims Through its sustained analysis of the artworks and writings of Umberto Boccioni Giacomo Balla and the Bragaglia brothers dating to the first decade after the movement s founding in 1909 Mather s account of their obsession with kinetic motion pivots around a 1913 debate on the place and relative import of photography among traditional artistic mediums a debate culminating in the expulsion of the Bragaglias but one that also prompted a range of productive responses by other futurist artists to world changing social political and economic conditions **Futurism** Giovanni Lista,1986 A comprehensive survey of the most famous movement in Italian modern art *Futurism* Rosa Trillo Clough,1969 **The History of Futurism** Geert Buelens,Harald Hendrix,Monica Jansen,2012-08-31 Futurism began as an artistic and social movement in early twentieth century Italy Until now much of the scholarship available in English has focused only on a single individual or art form This volume seeks to present a more complete picture of the movement by exploring the history of the movement the events leading up to the movement and the lasting impact it has had as well as the individuals involved in it The History of Futurism The Precursors Protagonists and Legacies addresses the history and legacy of what is generally seen as the founding avante garde movement of the twentieth century Geert Buelens Harald Hendrix and Monica Jansen have brought together scholarship from an international team of specialists to explore the Futurism movement as a multidisciplinary movement mixing aesthetics politics and science with a particular focus on the literature of the movement **Futurism and the Technological Imagination** Günter Berghaus,2009 This volume Futurism and the Technological Imagination results from a conference of the International Society for the Study of European Ideas in Helsinki It contains a number of re written conference contributions as well as several specially commissioned essays that address various aspects of the Futurists relationship to technology both on an ideological level and with regard to their artistic languages In the early twentieth

century many art movements vied with each other to overhaul the aesthetic and ideological foundations of arts and literature and to make them suitable vehicles of expression in the new Era of the Machine Some of the most remarkable examples came from the Futurist movement founded in 1909 by Filippo Tommaso Marinetti By addressing the full spectrum of Futurist attitudes to science and the machine world this collection of 14 essays offers a multifaceted account of the complex and often contradictory features of the Futurist technological imagination The volume will appeal to anybody interested in the history of modern culture art and literature

The Genesis of Futurism Günter Berghaus,1995 The first part of this text studies the aesthetic and ideological currents with which Marinetti came into contact during his early pre Futurist career The second part focuses on Marinetti's early publications showing how he assimilated his sources and how he progressively assembled the basic ingredients of the Futurist manifesto

2014 Günter Berghaus,2014-05-21 The International Yearbook of Futurism Studies was founded in 2009 the centenary year of Italian Futurism in order to foster intellectual cooperation between Futurism scholars across countries and academic disciplines The Yearbook does not focus exclusively on Italian Futurism but on the relations between Italian Futurism and other Futurisms worldwide on artistic movements inspired by Futurism and on artists operating in the international sphere with close contacts to Italian or Russian Futurism Volume 4 2014 is an open issue that addresses reactions to Italian Futurism in 16 countries Argentina Armenia Brazil Egypt France Germany Great Britain Greece Holland Hungary Japan Portugal Russia Slovenia Spain USA and in the artistic media of photography theatre and visual poetry

2016 Günter Berghaus,2016-05-24 Volume 6 2016 is an open issue with an emphasis on Nordic countries Denmark Finland Lithuania Estonia Iceland Four essays focus on Russia two on music other contributions are concerned with Egypt USA and Korea Furthermore there are sections on Futurist archives Futurism in caricatures and Futurism in fiction

Futurism: Anticipating Postmodernism Ilaria Riccioni,2019-08-02T00:00:00+02:00 The first Manifesto of Futurism was published on Le Figaro on February 20th 1909 It was to become the first avantgarde movement in art with the multiple aim of changing the function of art within society foster Italian culture beyond its provincial domains and last but not least extend language as free expression of a new and forthcoming society of technology Art in life was the deep aim of Marinetti's poetry which was then to expand well beyond Italian borders and well beyond artistic expression becoming an attitude for entering the new society The more society was developing social constraints the more artistic expression would become free of canons to let imagination fluently overwhelm reality The main topics proclaimed as crucial by Futurists are the contemporary most influential topics for social stability politics communication and technology as well as the major movers of social change What can we still grasp from the radical claims of avant garde art

2019 Günter Berghaus,Oleh S. Ilnytskyj,Gabriella Elina Imposti,Christina Lodder,2019-12-16 The ninth volume of the International Yearbook of Futurism Studies is dedicated to Russian Futurism and gathers ten studies that investigate the impact of F T Marinetti's visit to Russia in 1914 the neglected region of the Russian Far East the artist and writers Velimir

Khlebnikov Vasily Kamensky Maria Siniakova and Vladimir Mayakovsky the artistic media of advertising graphic arts cinema and artists books

Unveiling the Magic of Words: A Overview of "**Futurism**"
