Regional Economic Outlook, October 2016, Middle East and Central Asia International Monetary Fund. Middle East and Central Asia Dept., 2016-10-20 This issue focuses on the ongoing adjustment to cheaper oil and subdued economic activity for oil producing countries as well as the weak and fragile recovery in the Caucasus and Central Asia region It also discusses global spillovers from China s rebalancing and the growth of fiscal deficits

International Monetary Fund Annual Report 2018 International Monetary Fund, 2018-10-02 The past year was one of growing economic anxiety tied to skepticism about both economic integration and an international approach to economic policy making To help make globalization work for all the IMF focused on providing policy advice in many macro critical areas

The Report: Oman 2017 , Oman s economy contracted by 13.8% in nominal terms in 2015 as the ongoing low oil price environment squeezed growth and led to the largest budget deficit in over a decade In a bid to tackle the shortfall the government is taking a number of revenue raising measures such as cutting subsidies and increasing corporation tax while remaining focused on its long term diversification goals Though hydrocarbons still account for 33.9% of GDP and 78.7% of state revenues non oil sectors are playing an increasingly prominent role in the country s economic profile Authorities are targeting heavy industries in particular with plans to boost their GDP contribution to from 19.8% today to 29% by 2020 Meanwhile annual growth of 6% is being targeted in the mining sector with a host of

climate and reduce the role of the public sector in the economy through privatization and PPPs Reforms are needed to increase the incentives for nationals to work in the private sector and for private sector firms to hire them Increasing female participation in the labor market and employment would benefit productivity and growth across the region Where fiscal space is available fiscal policy can be used to support the structural reforms needed to boost private sector growth and employment
