The Art of Co-Creation Bryan R. Rill, Matti M. Hämäläinen, 2018-08-20 This book illustrates how to design and implement co creation a powerful form of collective creativity that harnesses the potential of teams and can generate breakthrough insights Skilled leaders and facilitators can utilize this approach to unleash the creative potential of their organizations Drawing from years of applied research the authors bring together insights from the fields of design and organizational development into an evocative and pragmatic how to guidebook Taking a human centred rather than process oriented perspective the book argues that experience design separates true co creation from other forms of collective efforts and design thinking Collective moments of creative insight emerge from the space between an experience of flow and synchronicity from which new ideas spring forth How to create and hold this space is the secret to the art of co creation Collective breakthroughs require stakeholders to undergo a journey from the world of their existing expertise into spaces of new potential It requires leaders moving from a position of dominating space to holding the space for others and developing core capacities such as empathy and awareness so that teams can engage each other co creatively This book uncovers the secrets of this journey enabling process designers to develop more effective programs

Collaborating with the Enemy Adam Kahane, 2017-07-05 Offers practical guidance for how to work with diverse others which is a precondition for confronting many of the complex challenges we face Morris Rosenberg President Pierre Elliott Trudeau Foundation

Collaboration is increasingly difficult and increasingly necessary. Often to get something done that really matters to us we need to work with people we don't agree with or like or trust. Adam Kahane has faced this challenge many times working on big issues like democracy and jobs and climate change and on everyday issues in organizations and families. He has learned that our conventional understanding of collaboration that it requires a harmonious team that agrees on where it's going how it's going to get there and who needs to do what is wrong. Instead we need a new approach to collaboration that embraces discord experimentation and genuine cocreation which is exactly what Kahane provides in this groundbreaking and timely book. Kahane shows that people who don't see eye to eye really can come together to solve big challenges. Whether in our businesses our governments our communities or our personal lives we can all benefit from this smart and timely book. Mark Tercek former President The Nature Conservancy and coauthor of *Nature's Fortune* Shows us how thinking and seeing differently can help us navigate this challenging landscape. Kahane abandons orthodoxy in taking on the most intransigent problems showing us the path to effective action in a complex world. James Gimian coauthor of *The Rules of Victory* Collaborating with the Enemy belongs on the same shelf as Sun Tzu's *The Art of War* and Machiavelli's *The Prince*. Stephen Huddart President The J W McConnell Family Foundation
