behavior and acted as a driving force for the development of tourism products such as film tourism. It also has played a role in the evolution and development of marketing, giving rise to new applications as in the case of digital and influence marketing. On the other hand, tourism organizations and destination management organizations face major challenges in communicating the attributes of a tourism product since this cannot be experienced before consumption. Thus, they need to know how and in which means or platforms of communication they can inform potential consumers.

Impact of New Media in Tourism provides theoretical and practical contributions in tourism and communication, including current research on the influence of new media and the active role of consumers in tourism. With a focus on decision making and increasing the visibility of products and destinations, the book provides support for tourism agencies and organizations around the world. Covering themes that include digital marketing, social media, and online branding, this book is essential for professionals, academicians, researchers, and students working or studying in the field of tourism and hospitality management, marketing, advertising, and media and communications.

Labour Law and the Gig Economy by Jo Carby-Hall and Lourdes Mella Méndez (2020-03-24) is an international book that analyses the impact of digitisation in labour markets on labour relationships and also on labour processes. The rapid progress of modern disruptive technologies and AIs and their multiple applications to each phase of the labour production system are changing the production rules on a global scale with significant impacts in every aspect of work. As new technologies transform work patterns and change the type of jobs available, destroying some while creating others and even the nature of the tasks performed, numerous legal problems arise which are challenging to legislators and legal scholars who need to find appropriate solutions to them. Considering the labour law issues which have been created by technological developments and currently affect the work of millions worldwide, this book highlights the full scope of these issues, suggesting solutions to emerging problems and ways to mitigate the risks brought about through technological advancement. Approaching the present debate with perspectives on legal problems with expertise from a wide range of different countries, this book presents informed and scholarly studies which answer the challenges that new technologies present in labour markets, private lives, and labour processes.
