Development As Freedom Amartya Sen:

Development as Freedom Amartya Sen, 2001-01-18 Amartya Sen winner of the 1998 Nobel Prize in Economic Science
Cover **An Analysis of Amartya Sen's Development as Freedom** Janna Miletzki, Nick Broten, 2017-07-05 Amartya Sen uses his 1999 work Development as Freedom to evaluate the processes and outcomes of economic development Having come to the conclusion that development is best summed up as the expansion of freedom Sen examines traditional definitions and understandings of the term He says people tend to think of freedoms as economic the freedom to enter into market exchanges or political the freedom to vote and be an active citizen and tries to understand why the definition has been so narrow hitherto He concludes that an evaluation of true freedom must necessarily include the freedom to access social services such as healthcare sanitation and nutrition just as much as it must acknowledge economic and political freedoms Evaluating the relevance of the current thinking behind development Sen concludes that the term freedom cannot simply be about income In many ways measuring income does not account for various unfreedoms manmade or natural bars to wellbeing that hinder development Sen's evaluation is all the more powerful for its clarity The freedom centered perspective has a generic similarity to the common concern with quality of life

Summary of Amartya Sen's Development as Freedom Everest Media, 2022-05-24T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 There is a connection between opulence and achievements but the link may or may not be strong and depend on many other circumstances The issue is not the ability to live forever on which Maitreyee concentrated but the capability to live a good life while you are alive 2 The usefulness of wealth is in the things it allows us to do But this relation is not exclusive or uniform since the impact of wealth on our lives varies with other influences Development must be more concerned with enhancing the lives we lead and the freedoms we enjoy 3 There are many ways in which people are deprived of their freedom For example many people in third world countries lack basic opportunities of health care or functional education or gainful employment or economic and social security 4 Economic development has many dimensions including economic security Political liberty and civil freedoms are also important on their own and do not have to be justified indirectly in terms of their effects on the economy

Development as Freedom Irene van Staveren, D. Gasper, 2002 *Underdevelopment, Development and the Future of Africa* Mawere, Munyaradzi, 2017-02-10 In view of the resilience of Africa's underdevelopment what do Africans make of their determined aspirations for development The continent of Africa has constantly drawn global attention most especially for both human and natural evils Underdevelopment it appears is one of the most eminent threatening evils It has plunged and promises to maintain the majority of Africa in abject poverty insecurity and vulnerability What perpetuates the ghost and gory of underdevelopment in Africa despite a proliferation of development rhetoric and initiatives How do ordinary Africans react to repeated talk and claims of development with little evidence of transformation for the better in their material circumstances This book interrogates the tenacity of underdevelopment amid calls for Africa to rise from its slumber and

reclaim its position in global affairs as the mother continent of humankind It contributes to the ongoing debates on why Africa remains trapped in the clutch of underdevelopment many decades after the purported end of colonialism The book comes at a critical time in human history a time when the talk on Africa s under development is louder due to the ravages of economic downturns and dysfunctional conflicts It poses a challenge to development practitioners civil society activists statesmen economists political scientists and theorists to rethink and reconsider their role as technocrats experts and ambassadors of positive change in Africa and the world beyond
