Impossible Exchange Jean Baudrillard, 2020-05-05 Working his way through the various spheres and systems of everyday life the political the juridical the economical the aesthetic the biological among others he finds that they are all characterized by the same non equivalence and hence the same eccentricity Literally they have no meaning outside themselves and cannot be exchanged for anything Politics is laden with signs and meanings but seen from the outside it has no meaning Schemes for genetic experimentation and investigation are becoming infinitely ramified and the more ramified

they become the more the crucial question is left unanswered who rules over life Who rules over death Baudrillard's conclusion is that the true formula of contemporary nihilism lies here the nihilism of value itself This is our fate and from this stem both the happiest and the most baleful consequences This book might be said to be the exploration first of the fateful consequences and subsequently by a poetic transference of situation of the fortunate happy consequences of impossible exchange

Dostoevsky's The Gambler Svetlana Evdokimova, 2024-02-02 Fyodor Dostoevsky's novel The Gambler is one of the most profound literary works to treat the phenomenon of gambling with a remarkable depth of psychological analysis and a wide ranging cultural and philosophical exploration of obsessive behavior from addictive gambling to erotic passion This novel delves into the cultural psychological and philosophical issues surrounding games of chance such as temporality freedom rebellion choice uncertainty determinism and creativity This is the first book in English dedicated to The Gambler This volume considers the phenomenon of gambling from a broad interdisciplinary perspective focusing not only on medical and psychological concepts of gambling as pathology but also on the broader cultural philosophical religious and aesthetic aspects of the problem What triggers fascination with risk taking and various aleatory activities What are the relations between gambling play and creativity Can gambling be seen as a form of social or existential rebellion and protest or even a quest for freedom Scholars from a variety of fields including psychiatry psychology philosophy literary studies and musicology have contributed to this volume and analyzed Dostoevsky's view of gambling as a fundamental problem of human existence with implications in the realms of philosophy religion and aesthetics

Modern Luck Robert S. C. Gordon, 2023-01-16 Beliefs superstitions and tales about luck are present across all human cultures according to anthropologists We are perennially fascinated by luck and by its association with happiness and danger uncertainty and aspiration Yet it remains an elusive ungraspable idea one that slips and slides over time all cultures reimagine what luck is and how to tame it at different stages in their history and the modernity of the long twentieth century is no exception to the rule Apparently overshadowed by more conceptually tight scientific and characteristically modern notions such as chance contingency probability or randomness luck nevertheless persists in all its messiness and vitality used in our everyday language and the subject of studies by everyone from philosophers to psychologists economists to self help gurus Modern Luck sets out to explore the enigma of luck's presence in modernity examining the hybrid forms it has taken on in the modern imagination and in particular in the field of modern stories Indeed it argues that modern luck is constituted through narrative through modern luck stories Analysing a rich and unusually eclectic range of narrative taken from literature film music television and theatre from Dostoevsky to Philip K Dick from Pinocchio to Cimino from Curtiz to Kiełowski it lays out

first the usages and meanings of the language of luck and then the key figures patterns and motifs that govern the stories told about it from the late nineteenth century to the present day **Fast One** Paul Cain,2014-05-28 Fast One is possibly the toughest tough guy and most brutal gangster story ever written Set in Depression Los Angeles it has a surreal quality that is positively hypnotic It is the saga of gunman gambler Gerry Kells and his dipso lover S Granquist she has no first name who rearrange the LA underworld and disappear in an explosive climax that matches their first appearance The pace is incredible and relentless and the complex plot with its twists and turns defies summary One Los Angeles reviewer called the book a ceaseless welter of bloodshed while the Saturday Review of Literature thought it the hardest boiled yarn of a decade Fast One was originally a collection of stories featuring the gambler gunman Kells The tales ran in Black Mask magazine from 1931 1932 **100 Must-read Life-Changing Books** Nick Rennison,2008-09-25 Novels which transform our ideas about human possibilities biographies which celebrate the achievements of extraordinary individuals polemical works of non fiction which oblige us to alter our views of the world or of human society all of us can remember reading at least one book which made us think about the world anew Here the author of the popular Bloomsbury Good Reading Guide selects the very best books which may or may not have changed the world but which have certainly changed the lives of thousands of people who have read them Some examples of titles included Maya Angelou I Know Why the Caged Bird Sings a poignant recording of the author s triumph over the obstacles of being black and poor in a racist society Paulo Coelho The Alchemist Santiago s meeting with the alchemist opens his eyes to the true values of life love and suffering The Diary of Anne Frank Half a century later the story of a teenager coming to maturity in the most terrible of circumstances remains profoundly moving Kahlil Gibran The Prophet Gibran s poetic essays reveal his thoughts on everything in life from love and marriage to the enigmas of birth and death Robert M Pirsig Zen and the Art of Motorcycle Maintenance Pirsig s narrator creates a philosophical masterpiece that has the power to change lives **Crossroads** Rochan Morgan,2008-07-29 A star student athlete learns the hard way just how fast a life filled with promise can become the greatest of urban tragedies after he joins a local gang and becomes immersed in self destructive activities Original **Foundational Java** David Parsons,2020-09-21 Java is now well established as one of the world s major programming languages used in everything from desktop applications to web hosted applications enterprise systems and mobile devices Java applications cover cloud based services the Internet of Things self driving cars animation game development big data analysis and many more domains The second edition of Foundational Java Key Elements and Practical Programming presents a detailed guide to the core features of Java and some more recent innovations enabling the reader to build their skills and confidence through tried and trusted stages supported by exercises that reinforce the key learning points All the most useful and commonly applied Java syntax and libraries are introduced along with many example programs that can provide the basis for more substantial applications Use of the Eclipse Integrated Development Environment IDE and the JUnit testing framework is integral to the book ensuring maximum productivity and

code quality when learning Java although to ensure that skills are not confined to one environment the fundamentals of the Java compiler and run time are also explained Additionally coverage of the Ant tool will equip the reader with the skills to automatically build test and deploy applications independent of an IDE Topics and features Presents the most up to date information on Java including Java 14 Examines the key theme of unit testing introducing the JUnit 5 testing framework to emphasize the importance of unit testing in modern software development Describes the Eclipse IDE the most popular open source Java IDE and explains how Java can be run from the command line Includes coverage of the Ant build tool Contains numerous code examples and exercises throughout Provides downloadable source code self test questions PowerPoint slides and other supplementary material at the website <http://www.foundjava.com> This hands on classroom tested textbook reference is ideal for undergraduate students on introductory and intermediate courses on programming with Java Professional software developers will also find this an excellent self study guide refresher on the topic Dr David Parsons is National Postgraduate Director at The Mind Lab Auckland New Zealand He has been teaching programming in both academia and industry since the 1980s and writing about it since the 1990s Condition Red Area 51 DeWayne Harper, 2013-11-27 July 9 1947 Roswell New Mexico A young boy tags along with his father to the Roswell Army Air Field and witnesses something he was not to see or know about until fifty three years later August 5 2000 Garden Plains Kansas A massive alien craft is spotted hovering by local citizens and darts off to the Northwest somewhere in Colorado where it starts to tailgate commercial Flight 311 on its way to Oklahoma City Three F 15 aircrafts are scrambling to intercept and investigate this unknown intruder The alien craft darts off to the Southeast and the three F 15s give pursuit of the unknown intruder The alien craft is able to lose the F 15s in a thunderstorm near Roswell and history repeats itself some fifty three years later **Oppositions and Paradoxes** John L. Bell, 2016-04-18 Since antiquity opposed concepts such as the One and the Many the Finite and the Infinite and the Absolute and the Relative have been a driving force in philosophical scientific and mathematical thought Yet they have also given rise to perplexing problems and conceptual paradoxes which continue to haunt scientists and philosophers In **Oppositions and Paradoxes** John L Bell explains and investigates the paradoxes and puzzles that arise out of conceptual oppositions in physics and mathematics In the process Bell not only motivates abstract conceptual thinking about the paradoxes at issue but he also offers a compelling introduction to central ideas in such otherwise difficult topics as non Euclidean geometry relativity and quantum physics These paradoxes are often as fun as they are flabbergasting Consider for example the famous Tristram Shandy paradox an immortal man composing an autobiography so slowly as to require a year of writing to describe each day of his life he would if he had infinite time presumably never complete the work although no individual part of it would remain unwritten Or think of an office mailbox labelled mail for those with no mailbox if this is a person's mailbox how can they possibly have no mailbox These and many other paradoxes straddle the boundary between physics and metaphysics and demonstrate the hidden difficulty in many of our most basic concepts The Selected Works of
