Principles of Art History Heinrich Wölfflin, 2015-05-07 Principles of Art History by Heinrich Wölfflin 1864 1945 a revolutionary attempt to construct a science of art through the study of the development of style has been a foundational work of formalist art history since it was first published in 1915 At once systematic and subjective and remarkable for its compelling descriptions of works of art Wölfflin's text has endured as an accessible yet rigorous approach to the study of style Although Wölfflin applied his analysis to objects of early modern European art Principles of Art History has been a fixture in the theoretical and methodological debates of the discipline of art history and has found a global audience With translations in twenty four languages and many reprints Wölfflin's work may be the most widely read and translated book of art history ever This new English translation appearing one hundred years after the original publication returns readers to Wölfflin's 1915 text and images It also includes the first English translations of the prefaces and afterword that Wölfflin himself added to later editions Introductory essays provide a historical and critical framework referencing debates engendered by Principles in the twentieth century for a renewed reading of the text in the twenty first **The Publishers' Trade List Annual**, 1989

Critical Terms for Art History, Second Edition Robert S. Nelson, Richard Shiff, 2010-03-15 Art has always been contested terrain whether the object in question is a medieval tapestry or Duchamp's Fountain But questions about the categories of art and art history acquired increased urgency during the 1970s when new developments in critical theory and other intellectual projects dramatically transformed the discipline The first edition of Critical Terms for Art History both mapped and contributed to those transformations offering a spirited reassessment of the field's methods and terminology Art history as a field has kept pace with debates over globalization and other social and political issues in recent years making a second edition of this book not just timely but crucial Like its predecessor this new edition consists of essays that cover a wide variety of loaded terms in the history of art from sign to meaning ritual to commodity Each essay explains and comments on a single term discussing the issues the term raises and putting the term into practice as an interpretive framework for a specific work of art For example Richard Shiff discusses Originality in Vija Celmins's To Fix the Image in Memory a work made of eleven pairs of stones each consisting of one original stone and one painted bronze replica In addition to the twenty two original essays this edition includes nine new ones performance style memory monument body beauty ugliness identity visual culture visual studies and social history of art as well as new introductory material All help expand the book's scope while retaining its central goal of stimulating discussion of theoretical issues in art history and making that discussion accessible to both beginning students and senior scholars Contributors Mark Antliff Nina Athanassoglou Kallmyer Stephen Bann Homi K Bhabha Suzanne Preston Blier Michael Camille David Carrier Craig Clunas Whitney Davis Jas Elsner Ivan Gaskell Ann Gibson Charles Harrison James D Herbert Amelia Jones Wolfgang Kemp Joseph Leo Koerner Patricia Leighton Paul Mattick Jr Richard Meyer W J T Mitchell Robert S Nelson Margaret Olin William Pietz Alex Potts Donald Preziosi Lisbet
