alphabetically yet each is fully cross referenced and attached to one of seven thematic categories whose wholes far exceed the sum of their parts

Environmental Political Theory Steve Vanderheiden, 2020-10-02 Our politics is intimately linked to the environmental conditions and crises of our time The challenges of sustainability and the discovery of ecological limits to growth are transforming how we understand the core concepts at the heart of political theory In this essential new textbook leading political theorist Steve Vanderheiden examines how the concept of sustainability challenges and is challenged by eight key social and political ideas ranging from freedom and equality to democracy and sovereignty He shows that environmental change will disrupt some of our most cherished ideals requiring new indicators of progress new forms of community and new conceptions of agency and responsibility He draws on canonical texts contemporary approaches to environmental political theory and vivid examples to illustrate how changes in our conceptualization of our social aspirations can inhibit or enable a transition to a just and sustainable society Vanderheiden masterfully balances crystal clear explanation of the essentials with cutting edge analysis to produce a book that will be core reading for students of environmental and green political theory everywhere

Bioeconomy Iris Lewandowski, 2017-12-11 This book is open access under a CC BY 4.0 license This book defines the new field of Bioeconomy as the sustainable and innovative use of biomass and biological knowledge to provide food feed industrial products bioenergy and ecological services The chapters highlight the importance of bioeconomy related concepts in public scientific and political discourse Using an interdisciplinary approach the authors outline the dimensions of the bioeconomy as a means of achieving sustainability The authors are ideally situated to elaborate on the diverse aspects of the bioeconomy They have acquired in depth experience of interdisciplinary research through the university's focus on Bioeconomy its contribution to the Bioeconomy Research Program of the federal state of Baden Württemberg and its participation in the German Bioeconomy Council With the number of bioeconomy related projects at European universities rising this book will provide graduate students and researchers with background information on the bioeconomy It will familiarize scientific readers with bioeconomy related terms and give scientific background for economists agronomists and natural scientists alike

The Oxford Companion to Politics of the World Joel Krieger, Margaret E. Crahan, 2001-08-02 The world has seen dramatic changes since the publication of the first edition of The Oxford Companion to Politics of the World in 1993 In the post Cold War world globalization now offers wealth and opportunities on a broader scale as well as greater international harmony but threatens to reinforce the advantage gap between wealthy and poor regions and intensify environmental degradation Conflict and squalor expressed in brutal brushfire wars epidemics and chronic underdevelopment vie with equally dramatic accounts of growth and democracy associated with a liberal political order and the global diffusion of trade investment and communications Drawing on the breadth of the first edition this updated edition reflects the changing world with a reassessment of many of the core themes of the Companion and new articles on the people concepts and events that have shaped the world since 1993 The second

edition includes biographies of Kofi Annan Tony Blair Bill Clinton and Gerhard Schroder articles on events such as the Rwandan Genocide and the war in Kosovo and coverage of international trade developments such as NAFTA and the World Trade Organization Eighty seven of the 672 articles in the Second Edition are completely new most others are thoroughly revised This edition also features a substantial new set of articles a dozen essays on critical issues written by influential figures Recognizing the importance of including varying viewpoints the editors have commissioned these essays to provide an informed and often passionate debate on controversial topics Discussions include Lani Guinier and Glenn Loury on Affirmative Action Francis Fukuyama and Milton Fisk on the Limits of Liberal Democracy and Lloyd Axworthy and John Bolton on the United Nations The contributors discuss nearly every nation in the world including extensive information on institutions political parties leaders and the sources of political mobilization and conflict The volume also includes biographies of more than seventy five political leaders and thinkers who have shaped the contemporary political world Articles include detailed discussions of critical historical developments and events concepts international law and organizations The Oxford Companion to Politics of the World Second Edition is an accessible timely thought provoking and comprehensive reference that captures the complexity and vitality of contemporary world affairs

Higher Education for the Sustainable Development Goals Leonardo Caporarello, Payal Kumar, Anirudh Agrawal, 2023-12-04 Presenting chapters from international contributors this collection provides practical insights that inform practice focusing on two themes the design of HEI curricula and a specific focus on Global North and Global South divide in addressing social and political differences and the role that HEIs can play in addressing the divide

Environmental Protection and Human Rights Donald K. Anton, Dinah L. Shelton, 2011-04-11 With unique scholarly analysis and practical discussion this book provides a comprehensive introduction to the relationship between environmental protection and human rights being formalized into law in many legal systems This book instructs on environmental techniques and procedures that assist in the protection of human rights The text provides cogent guidance on a growing international jurisprudence on the promotion and protection of human rights in relation to the environment that has been developed by international and regional human rights bodies and tribunals It explores a rich body of case law that continues to develop within states on the environmental dimension of the rights to life to health and to public participation and access to information Five compelling contemporary case studies are included that implicate human rights and the environment ranging from large dam projects to the creation of a new human right to a clean environment
