Dictators Handbook

Vladimir Gel'man

Dictators Handbook:

The Dictator's Handbook Bruce Bueno de Mesquita, Alastair Smith, 2011-09-27 A groundbreaking new theory of the real rules of politics leaders do whatever keeps them in power regardless of the national interest As featured on the viral video Rules for Rulers which has been viewed over 3 million times Bruce Bueno de Mesquita and Alastair Smith's canonical book on political science turned conventional wisdom on its head They started from a single assertion Leaders do whatever keeps them in power They don't care about the national interest or even their subjects unless they have to This clever and accessible book shows that democracy is essentially just a convenient fiction Governments do not differ in kind but only in the number of essential supporters or backs that need scratching The size of this group determines almost everything about politics what leaders can get away with and the quality of life or misery under them The picture the authors paint is not pretty But it just may be the truth which is a good starting point for anyone seeking to improve human governance

Dictator's Handbook Randall Wood, Carmine DeLuca, 2012-06 Ever wonder if the world's tyrants are all using the same instruction manual They are here it is From getting to power to dividing your enemies suppressing revolution stealing elections and making your fortune this 320 page volume shows you how the pros have been doing it for centuries Fully factual with a complete bibliography and footnotes the Dictator's Handbook gives you a road map to tyranny step by step Beautifully illustrated by a professional artist the text is funny and deadly serious This is truly a practical manual for the aspiring tyrant

Notes on Bruce Bueno de Mesquita's & et al The Dictator's Handbook by Instaread
Instaread, 2017-03-03

Bridling Dictators Graeme Gill, 2021-11-20 Galtieri Lukashenka and Putin are some of the dictators whose untrammelled personal power has been seen as typical of the dog eat dog nature of leadership in authoritarian political systems This book provides an innovative argument that rather than being characterised by permanent insecurity fear and arbitrariness the leadership of dictatorships is actually governed by a series of rules The rules are identified and their operation is shown in a range of different types of authoritarian regime The operation of the rules is explained in ten different countries across five different regime types the Soviet Union and China as communist single party regimes Argentina Brazil and Chile as military regimes electoral authoritarian Malaysia and Mexico personalist dictatorships in Belarus and Russia and the Gulf monarchies Through close analysis of the way leadership functions in these different countries the book shows how the rules have worked in different institutional settings It also shows how the power distribution in authoritarian oligarchies is related to the rules The book transforms our understanding of how authoritarian systems work

The Dictators Iain Dale, 2024-09-05 IAIN DALE'S LATEST COLLECTION OF ESSAYS AVAILABLE TO BUY NOW Praise for Iain Dale Riveting and enlightening A history lesson via a novel route Really enjoying reading this book It is easy to dip in and out and each chapter is well written Illuminating yet balanced Were the signs that Putin is a ruthless dictator there all along How should we deal with President Xi of China Given the world seems to be moving more and more

towards authoritarian rule this is the right moment to seek warnings and lessons from history In *The Dictators* Iain Dale brings together 64 essays by historians academics journalists and politicians about elected and unelected dictators wartime and peacetime dictators those driven by ideology and those with a reputation for sheer brutality How did these tyrants autocrats and despots seize power and how did they exercise it And how did they lose it Very few dictators die peacefully in their own beds after all Only by examining these figures from the 6th century BC to the present from ancient Greece to present day Saudi Arabia do patterns start to emerge We can see the shared character traits the common conditions the patterns of behaviour that have enabled dictators to seize power time and time again *The Dictators* is acutely relevant to world politics today it is indeed a warning from history Will we take heed Or will history in fact teach us that history teaches us nothing

Dictators and their Secret Police Sheena Chestnut Greitens, 2016-08-16 This book explores the secret police organizations of East Asian dictators their origins operations and effects on ordinary citizens lives

Instrumentalisation of Mass Media in Electoral Authoritarian Regimes Nozima Akhrarkhodjaeva, 2017-04-25 Focusing on the case of Russia during Putin's first two presidential terms this book examines media manipulation strategies in electoral authoritarian regimes Which instruments and approaches do incumbent elites employ to skew media coverage in favor of their preferred candidate in a presidential election What effects do these strategies have on news content Based on two case studies of the presidential election campaigns in Russia in 2000 and in 2008 this investigation identifies the critical internal mechanisms according to which these regimes work Looking at the same country while it transformed from a competitive into a hegemonic authoritarian regime allows a diachronic comparison of these two regime types The book explicates the subtle differences between competitive and hegemonic regimes different types of media manipulation strategies the diverging extent of media instrumentalization various interactions among state actors large business owners the media and journalists the respective effects that all these factors and interactions have on media content and the peculiar types of bias prevalent in each type of regime This deep exploration of post Soviet politics is based on extensive review of documents interviews with media professionals and quantitative as well as qualitative content analyses of news media during two Russian presidential election campaigns

How to Be a Dictator Mikal Hem, 2017-06-06 A Tongue in Cheek Guide to Becoming a Dictator Based on the Outrageous Scandalous and Excessive Behavior of Dictators Past and Present Who hasn't dreamed of one day ruling your own country Along with great power comes unlimited influence control admiration and often wealth How to Be a Dictator will teach you the tricks of the trade how to rise to the top and stay in power and how to enjoy the fruits of your excellence Featuring examples from the most successful leaders and regimes in the business including Kim Jong Il Robert Mugabe Muammar Gaddafi Nicolae Ceausescu Francois Papa Doc Duvalier and many others this handy guide offers ten easy lessons on becoming and acting like a dictator from how to rig an election and create your own personality cult to the dos and don'ts of dictator fashion Other topics include how to become wealthy and spend your fortune sleeping around expressing your

literary genius and how to avoid being toppled exiled and or meeting any other dismal end Combining black humor with political insights How to Be a Dictator is peppered with horrifying and hilarious stories from some of the most eccentric modern world leaders International Law and Contemporary Global Challenges Max Hilaire,2024-03-18 This book simultaneously sheds light on the most pressing global challenges facing humanity in the 21st century and pays tribute to President Vaclav Havel of the Czech Republic who had a great impact on the transformation of world politics in the 20th century It examines in detail contemporary international issues such as climate change mass migration refugees internal armed conflicts great power rivalry and regional political instability It also underscores the increasing inability of the Westphalian model to solve complex transnational problems and calls for a new approach Included as a postscript is an extensive analysis of the resurgence of dictatorial regimes in many regions of the world and their attempt to undo the rules based international order established after World War II This trend is a setback for those who fought tirelessly to end the Cold War and to spread freedom and democracy to millions of people across the globe Today that legacy is being challenged by autocratic regimes that see respect for human rights as a threat to their political survival International law is what unites us as citizens of the world and only through international law and multilateral cooperation can we address the global challenges examined in this book **The Politics of Bad Governance in Contemporary Russia** Vladimir

Gel'man,2022-07-06 In this book Vladimir Gel man considers bad governance as a distinctive politico economic order that is based on a set of formal and informal rules norms and practices quite different from those of good governance Some countries are governed badly intentionally because the political leaders of these countries establish and maintain rules norms and practices that serve their own self interests Gel man considers bad governance as a primarily agency driven rather than structure induced phenomenon He addresses the issue of causes and mechanisms of bad governance in Russia and beyond from a different scholarly optics which is based on a more general rationale of state building political regime dynamics and policy making He argues that although these days bad governance is almost universally perceived as an anomaly at least in developed countries in fact human history is largely a history of ineffective and corrupt governments while the rule of law and decent state regulatory quality are relatively recent matters of modern history when they emerged as side effects of state building Indeed the picture is quite the opposite bad governance is the norm while good governance is an exception The problem is that most rulers especially if their time horizons are short and the external constraints on their behavior are not especially binding tend to govern their domains in a predatory way because of the prevalence of short term over long term incentives Contemporary Russia may be considered as a prime example of this phenomenon Using an analysis of case studies of political and policy changes in Russia after the Soviet collapse Gel man discusses the logic of building and maintaining the politico economic order of bad governance in Russia and paths of its possible transformation in a theoretical and comparative perspective Righteous Politics Mehran Kamrava,2023-08-17 Since the establishment of the Islamic Republic of Iran in

1979 the Iranian political system has been subject to diminishing legitimacy. In recent years various waves of protest have spread across the country and the question of the resilience of the revolutionary state becomes more pressing by the day. Drawing from extensive fieldwork and rare primary sources, Mehran Kamrava provides here a comprehensive and accessible analysis of the Iranian state and the various formal and informal institutions through which it operates. The book offers an in-depth analysis of the Iranian state from the Constitution to the powers and offices of the Supreme Leader, the Islamic Revolutionary Guard Corps to the several intelligence agencies. Paying careful attention to the nuances of Iranian politics, Kamrava also highlights how factional politics and rentierism have served to enhance state resilience. Presenting a range of original insights, this book is invaluable to understanding the inner workings of the contemporary Iranian state.

Congressional Record United States. Congress, 1941 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837, and the *Congressional Globe* 1833-1873. *The Spoils of War* Andrew Cockburn, 2016-09-27 Two eminent political scientists show that America's great conflicts from the Revolutionary War to the War on Terror were fought not for ideals or even geopolitical strategy but for the individual gain of the presidents who waged them. It's striking how many of the presidents Americans venerate—Abraham Lincoln, George Washington, Franklin D. Roosevelt, and John F. Kennedy—to name a few—oversaw some of the republic's bloodiest years. Perhaps they were driven by the needs of the American people and the nation. Or maybe they were just looking out for themselves. This revealing and entertaining book puts some of America's greatest leaders under the microscope, showing how their calls for war, usually remembered as brave and noble, were in fact selfish and convenient. In each case, our presidents chose personal gain over national interest while loudly evoking justice and freedom. The result is an eye-opening retelling of American history and a call for reforms that may make the future better. Bueno de Mesquita and Smith demonstrate in compelling fashion that wars, even bloody and noble ones, are not primarily motivated by democracy or freedom or the sanctity of human life. When our presidents risk the lives of brave young soldiers, they do it for themselves. **Transition**

beyond Denuclearisation Chan Young Bang, 2020-05-30 This book seeks to go beyond conventional literature on the North Korean nuclear issue by examining the chances of survival of the Kim Jong Un regime both with and without the nuclear weapons program. It offers a detailed historical background of the dysfunctional North Korean economy, explores the contemporary socioeconomic condition of the country, examines the failures of the Six-party Talks and other attempts at negotiations with North Korea, and outlines a blueprint for the survival of the regime through rapid economic modernization to be put forward by the five stakeholder nations in exchange for dismantlement of the nuclear weapons program.

Superheroes and Economics Brian O'Roark, Rob Salkowitz, 2018-07-11 At first sight, superheroes and economics seem to

occupy completely different dimensions but a clash of dimensions is a classic comic book storyline In this first of its kind book an economist and a business writer assemble an A team of academic talent to explore the intersection of superhero mythology and economic theory in ten accessible chapters Superheroes and Economics uncovers basic economic truths that are integral to the comic stories from some of the genres most famous names The authors of the chapters look at ways that economic principles can add authenticity to imagined universes and how familiar superhero stories can demonstrate concepts used by economists to forecast the behavior of markets and individuals If Spider Man is so smart why isn't he rich What are the economic implications of a tech entrepreneur like Tony Stark actually inventing Iron Man armor What does the 80 year career of Wonder Woman tell us about the evolving role of women in the workplace This unique book extends the scope of comics studies to encompass social sciences It offers a great way to introduce both fans and students to topics like opportunity cost growth inflation and cost benefit analysis as well as more advanced concepts like moral hazard utility functions and economic growth This text can be used to supplement economics courses using colorful examples that any pop culture fan can relate to

AMERICAN ABSOLUTISM Gary A. Freitas, 2024-01-29 Disrupting the Generational Cycle of Distrust in America's 600 Year Cultural War You are about to scan a high resolution MRI of the psychological forces generating discord and disrupting the American democratic experiment Absolute mindedness is not a personality type clinical disorder or social psychopathology but an archaic trust adaptation giving rise to much of today's populist frustration and anger When trust is disrupted early in life complexity ambiguity and disappointment fixate on a trust mistrust duality good bad right wrong us versus them Republicans and Democrats are undergoing cultural mitosis An evolutionary social and political speciation driving us toward an autocratic America Constitutional originalists were raised in parental originalism emphasizing principle and discipline over empathy and reasoning Solo mass shootings are a predictable abandonment pattern over the course of America's history of gun rights and vigilante ethos Conspiracy theories are repetitive information diffusion in dense social networks during times of social unrest triggering individuals pre-wired for resignation grievance and revenge The modern dictator a dark triad of malignant narcissism psychopathy and Machiavellianism American Absolutism explores what happens when human adaptation loses viability as it comes face to face with an exponentially evolving complexity that is the modern human condition

The Violence of Law Jens Meierhenrich, 2024-04-30 Lawfare describes the systematic use and abuse of legal procedure for political ends This provocative book examines this insufficiently understood form of warfare in post-genocide Rwanda where it contributed to the making of dictatorship Jens Meierhenrich provides a redescription of Rwanda's daring experiment in transitional justice known as inkiko gacaca By dissecting the temporally and structurally embedded mechanisms and processes by which change agents in post-genocide Rwanda manoeuvred to create modified legal arrangements of things past Meierhenrich reveals an unexpected jurisprudence of violence Combining nomothetic and ideographic reasoning he shows that the deformation of the gacaca courts and thus the

rise of lawfare in post genocide Rwanda was not preordained but the outcome of a violently structured contingency The Violence of Law tells a disturbing tale and will appeal to scholars advanced students and practitioners of international and comparative law African studies and human rights [Solving For Democracy](#) Tony Bracks,2017-11-21 **Dividing ASEAN and Conquering the South China Sea** Daniel C. O'Neill,2018-09-04 The ASEAN Way is based on the principle of consensus any individual member state effectively has a veto over any proposal with which it disagrees Dividing ASEAN and Conquering the South China Sea analyzes how China uses its influence to divide ASEAN countries in order to prevent them from acting collectively to resolve their territorial disputes with China in the South China Sea Using comparative case studies of China s relations with Cambodia the Philippines and Myanmar O Neill argues that the regime type in the country with which China is interacting plays an important role in enhancing or constraining China s ability to influence the governments of developing states within ASEAN and globally Authoritarian institutions facilitate Chinese influence while democratic institutions inhibit that influence O Neill argues that as long as ASEAN includes developing authoritarian regimes and given that the United States and other global powers are unlikely to risk any serious conflict over each push of China s maritime boundaries little by little China will assert its sovereignty over the South China Sea Nevertheless noting the long term global trend of states democratizing he contends that if China chooses to engage in more sophisticated bilateral politics such as providing incentives to a broader range of interest groups in democratic states then China will have more success in projecting its power globally Professor O Neill s well crafted and theoretically sound assessment of China successfully dividing ASEAN in pursuit of claims in the South China Sea also shows important variations in China s regional influence dependent notably on the degree of authoritarianism and democracy in Southeast Asian governments Robert Sutter professor of practice of international affairs George Washington University There are plenty of books looking at various aspects of the South China Sea issue but I am not aware of any that duplicates the approach of this book It is a useful addition to our understanding both of the specific issue and of the broader theoretical implications which it raises Richard Rigby professor and executive director China Institute the Australian National University *BUCKETS OF BLOOD* Robert Firth,2020 The War to End All Wars as it was erroneously and overly optimistically named ended in 1918 followed by a brief interlude a period of time for the Germany to coalesce and strengthen before again crying chaos and unleashing the vicious dogs of war Exactly as before it was the bloody minded Germans who drove the entire world again into the abyss In this war there was no excuse no Arch Duke assassination no nothing We argue that the responsibility lies solely on the shoulders of a single individual We will show that Adolph was the only man in Germany capable of motivating the German people sufficiently to enter another world war By so doing we are able to lay blame solely on one individual for the sixty million or more who were robbed of their lives in this calamitous hideous and entirely avoidable tragedy Had Adolph Hitler never been born or perished in WWI or hung by the Bavarian government in 1923 it is entirely likely that WWII would never have occurred Hitler survived

some 32 assassination attempts Had one succeeded early on I would likely not be writing this book and millions would still be alive

The Enigmatic Realm of **Dictators Handbook**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Dictators Handbook** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of those who partake in its reading experience.
