Bizup and FitzGerald provide fresh examples and standardized terminology to clarify concepts like argument, warrant, and problem. Following the same guiding principle as earlier editions—that the skills of doing and reporting research are not just for elite students but for everyone—this new edition retains the accessible voice and direct approach that have made *The Craft of Research* a leader in the field of research reference. With updated examples and information on evaluation and using contemporary sources, this beloved classic is ready for the next generation of researchers. Over 700,000 copies sold. *A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition* Kate L. Turabian, 2009-08-14

Dewey Bellow, Strauss, Friedman: The University of Chicago has been the home of some of the most important thinkers of the modern age. But perhaps no name has been spoken with more respect than Turabian. The dissertation secretary at Chicago for decades, Kate Turabian literally wrote the book on the successful completion and submission of the student paper. Her *Manual for Writers of Research Papers, Theses, and Dissertations* created from her years of experience with research projects across all fields, has sold more than seven million copies since it was first published in 1937. Now, with this seventh edition, Turabian's *Manual* has undergone its most extensive revision, ensuring that it will remain the most valuable handbook for writers at every level, from first-year undergraduates to dissertation writers apprehensively submitting final manuscripts to senior scholars who may be old hands at research and writing but less familiar with new media citation styles. Gregory G Colomb, Joseph M Williams, and the late Wayne C Booth, the gifted team behind *The Craft of Research*, and the University of Chicago Press Editorial Staff combined their wide-ranging expertise to remake this classic resource. They preserve Turabian's clear and practical advice while fully embracing the new modes of research, writing, and source citation brought about by the age of the Internet.
