Dignity The Essential Role It Plays In Resolving Conflict Donna Hicks:

Dignity Donna Hicks, 2011-09-06 The desire for dignity is universal and powerful. It is a motivating force behind all human interaction in families, in communities, in the business world, and in relationships at the international level. When dignity is violated, the response is likely to involve aggression, even violence, hatred, and vengeance. On the other hand, when people treat one another with dignity, they become more connected and are able to create more meaningful relationships. Surprisingly, most people have little understanding of dignity, observes Donna Hicks in this important book. She examines the reasons for this gap and offers a new set of strategies for becoming aware of dignity's vital role in our lives and learning to put dignity into practice in everyday life. Drawing on her extensive experience in international conflict resolution and on insights from evolutionary biology, psychology, and neuroscience, the author explains what the elements of dignity are, how to recognize dignity violations, how to respond when we are not treated with dignity, how dignity can restore a broken relationship, why leaders must understand the concept of dignity, and more. Hicks shows that by choosing dignity as a way of life, we open the way to greater peace within ourselves and to a safer and more humane world for all. **Dignity: Its**

By choosing dignity as a way of life, Hicks shows we open the way to greater peace within ourselves and to a safer and more humane world for all. For the Tenth Anniversary Edition of *Dignity*, Hicks has written a new preface that reflects on her experience helping communities and individuals understand the power of dignity and how it can lead to a more peaceful world. Securing Peace in Angola and Mozambique Miranda Melcher, 2024-03-21 This book helps explain how and why there are such diverging outcomes of UN peace negotiations and treaties through a detailed examination of peace processes in the Angolan and Mozambican civil wars. Does it really matter what's written on page 36, protocol V, section III, point 5 of a UN-endorsed peace treaty? Dr. Miranda Ruwart Melcher shows that seemingly small details, such as who wears suits, who has toothbrushes, and how specific words are translated between French and English, can and have delayed peace or contributed to restarting wars. Dr. Melcher uses unique primary source data, including interviews with key actors who have participated in peace treaty negotiations, as well as thousands of previously newly opened UN documents. She argues that treaty specificity is an undervalued but important factor in researching the success or failure of peace processes. The book offers new insights

and policy recommendations for key details whose presence or absence can have a significant impact on how peace processes unfold

Powerarchy Melanie Joy, 2019-09-03 Harvard educated psychologist and bestselling author Melanie Joy exposes the psychology that underlies all forms of oppression and abuse and the belief system that gives rise to this psychology which she calls powerarchy Melanie Joy had long been curious as to why people who were opposed to one or more forms of oppression such as racism sexism speciesism and so forth often stayed mired in many others She also wondered why people who were working toward social justice sometimes engaged in interpersonal dynamics that were unjust Or why people who valued freedom and democracy might nevertheless vote and act against these values Where was the disconnect In this thought provoking analysis Joy explains how we ve all been deeply conditioned by the invisible system of powerarchy to believe in a hierarchy of moral worth to view some individuals and groups as either more or less worthy of moral consideration and to treat them accordingly Powerarchy conditions us to engage in power dynamics that violate integrity and harm dignity and it creates unjust power imbalances among social groups and between individuals Joy describes how powerarchies both social

and interpersonal perpetuate themselves through cognitive distortions such as denial and justification narratives that reinforce the belief in a hierarchy of moral worth and privileges that are granted to some and not others She also provides tools for transformation By illuminating powerarchy and the psychology it creates Joy helps us to work more fully toward transformation for ourselves others and our world

Raising Our Hands Jenna Arnold, 2020-06-16 White women are one of the most influential demographics in America we are the largest voting bloc with purchasing power that exceeds anybody else s and when we unify to demand change we are a force to be reckoned with Yet so many of us sit idly on the sidelines opting out of raising our hands to do learn and engage in ways that could make a difference Why White American women are no monolith Yet as Women s March national organizer Jenna Arnold has learned over the past few years criss crossing the US in conversations with white women about their identity and role in the country we do possess common characteristics ones that get in the way of us becoming more engaged as citizens We re so focused on checking off our to do lists or so afraid of getting it wrong or so busy trying to avoid conflict that we are actively avoiding the urgent conversations we need to have We are confused about how we got here and unsure how to do better Raising Our Hands is the reckoning cry for white women It asks us to step up and join the new frontlines of the fight against complacency in our homes in our behaviors and in our own minds Consider Raising Our Hands your starting place your Intro to Being a White Woman in Today s World freshman year class In these pages Jenna peels back the history that s been kept out of textbooks and the cultural norms that are holding us back so we can finally start really listening to marginalized voices and doing our part to promote progress The American white woman is a powerful force an essential participant to mobilize alongside the rest of humanity on behalf of the world and we can no longer make excuses for why we don t have time or don t know enough

The Practice of Human Development and Dignity Paolo G. Carozza, Clemens Sedmak, 2020-10-31 Although deeply contested in many ways the concept of human dignity has emerged as a key idea in fields such as bioethics and human rights It has been largely absent however from literature on development studies The essays contained in The Practice of Human Development and Dignity fill this gap by showing the implications of human dignity for international development theory policy and practice Pushing against ideas of development that privilege the efficiency of systems that accelerate economic growth at the expense of human persons and their agency the essays in this volume show how development work that lacks sensitivity to human dignity is blind Instead genuine development must advance human flourishing and not merely promote economic betterment At the same time the essays in this book also demonstrate that human dignity must be assessed in the context of real human experiences and practices This volume therefore considers the meaning of human dignity inductively in light of development practice rather than simply providing a theory or philosophy of human dignity in the abstract It asks not only what is dignity but also how can dignity be done Through a unique multidisciplinary dialogue The Practice of Human Development and Dignity offers a dialectical and systematic examination of human dignity that moves beyond the current impasse in thinking

about the theory and practice of human dignity It will appeal to scholars in the social sciences philosophy and legal and development theory and also to those who work in development around the globe Contributors Paolo G Carozza Clemens Sedmak S verine Deneulin Simona Beretta Dominic Burbidge Matt Bloom Deirdre Guthrie Robert A Dowd Bruce Wydick Travis J Lybbert Paul Perrin Martin Schlag Luigino Bruni Lorenza Violini Giada Ragone Steve Reifenberg Elizabeth Hlabse Catherine E Bolten Ilaria Schnyder von Wartensee Tania Groppi Maria Sophia Aguirre and Martha Cruz Zuniga
