You Can'T Heal a Wound by Saying It'S Not There Dr. Sandra J. Taulbee, 2017-07-07 Today men and women are running around empty trying to fill a void with addictions to work busyness alcohol drugs high debt pornography serial dead end relationships and sex without commitment My book speaks about the futility of this empty search and helps you find peace and meaning beyond yourself You Cant Heal a Wound by Saying Its Not There is about recognizing the wounds we all have from growing up that cripple us until we face them and overcome them Written in a case study format and interspersed with poignant illustrations and memoirs from the authors life this book helps people identify what they need to do to grow up and become all that God intended so that they can use their life to help someone else be better I have learned much from people who have taught me over the years in private psychotherapy practice I have also learned much from people I have served in churches and from our church systems that sometimes leave people marginalized Thus I have a passion for and am drawn to those who have been alienated for one reason or another from church and institutionalized religion With that said I am currently planting a new church with outreach to people who feel disconnected from God www.connectionscommunitychurchirvine.net

Soft Patriarchs, New Men W. Bradford Wilcox, 2004-05 In the wake of dramatic recent changes in American family life evangelical and mainline Protestant churches took markedly different positions on family change This work explains why these two traditions responded so differently to family change and then goes on to explore how the stances of evangelical and mainline Protestant churches toward marriage and parenting influenced the husbands and fathers that fill their pews According to W Bradford Wilcox the divergent family ideologies of evangelical and mainline churches do not translate into large differences in family behavior between evangelical and mainline Protestant men who are married with children Mainline Protestant men he contends are new men who take a more egalitarian approach to the division of household labor than their conservative peers and a more involved approach to parenting than men with no religious affiliation Evangelical Protestant men meanwhile are soft patriarchs not as authoritarian as some would expect and given to being more emotional and dedicated to their wives and children than both their mainline and secular counterparts Thus Wilcox argues that religion domesticates men in ways that make them more responsive to the aspirations and needs of their immediate families **TRANSFORMATION** Stan Rynott M.A. LSCW COG, 2024-06-04 This book is for people like me
