Handbook of East Asian Entrepreneurship Tony Fu-Lai Yu, Ho-Don Yan, 2014-10-03 With the shift of the global economic gravity toward emerging economies and the roaring economic growth of the past three decades in China East Asian catching up growth strategies have profound implications for latecomer economies While there are many handbooks on entrepreneurship in general there is no reference on East Asian entrepreneurship This is the first of its kinds in the market The volume provides a useful reference for those who want to know East Asian entrepreneurship and business systems It also provides many excellent cases and illustrations on the growth of entrepreneurial firms and the rise of branded products in East Asia Policy makers or scholars who are interested in entrepreneurship small and medium sized enterprises Asian business systems international business innovation and technology management economic development strategic management and East Asian studies would benefit from this volume The volume contains two parts The first part is the key concepts associate with entrepreneurship and East Asian firm growth and transformation The second part presents cases of entrepreneurial firms and their founders in East Asia including Japan South Korea Taiwan Hong Kong and China With the handbook scholars students and policy makers can grab some basic ideas how entrepreneurs and firms in East Asia compete and survive in the world market and understand why and how East Asia economies can emerge as one of the most dynamic regions in the world Part I concepts relating to Entrepreneurship Guanxi Catching up strategies Types of entrepreneurship Business System Strategic Management Leadership Part II cases cover variedly from manufacturing to services industries and specifically including traditional and newly corporations ranging from toys convenient stores fast fashion high tech to catering and service Written by experts in their respective areas Handbook of East Asia entrepreneurship is an excellent review of theories policies and empirical evidences on important topics in Entrepreneurship in East Asian economic development The book is both a superb teaching tool and a valuable handbook in development economics Competing Chinese and Foreign Firms in Swelling Chinese Economy Tetsuo Abo, 2010 In the rapid growth of the Chinese economy as the world's factory and market while this process has been supported by foreign companies local Chinese companies have also emerged in the brief span of about 10 years to become major players This is an extremely rare case in the world history and recently even among the BRICs and the NIEs One cannot help but wonder what strategic positions foreign firms have adopted to cope with the extraordinary fierce challenges they have had to face from local Chinese firms A workshop discussed and illuminated the corporate activities and competitive and cooperative strategies of both Chinese and foreign firms from the perspective of Japanese European US and Asian firms **Make It in America** Matthew Lee Sawyer, 2022-12-01 A valuable handbook for entering launching and growing business in the United States The U S is the best place for business It has the biggest economy wealthiest consumers ready capital financing and a pro business legal system Immigrants can attain their American Dream However foreign executives and entrepreneurs often underestimate the

challenges and complexity of doing business in U S markets **Make It in America** How International Companies and Entrepreneurs Can Successfully Enter and Scale in U S Markets provides valuable insights useful tools and practical advice on a wide range of topics including financing marketing managing legal and tax requirements protecting intellectual property working with Americans and navigating the visa and immigration system The book includes case study lessons from businesses that came to the U S from South Korea Scotland Italy India Germany France England Denmark Colombia Canada and Australia Author Matthew Lee Sawyer is a business and marketing strategist who has built dozens of successful brands and start up businesses for both U S and international companies He is Managing Director of a global consulting firm and teaches at Columbia University and NYU An indispensable resource about doing business in the U S for international business leaders entrepreneurs expats and foreign students **Make it in America** also provides valuable lessons for Americans who want to learn about the challenges that non U S nationals face

Entrepreneurship in Korea Martin

Hemmert,Jae-Jin Kim,2021-06-28 **Entrepreneurship in Korea** offers a fresh perspective on entrepreneurship in Korea by combining a historical review of the achievements of Korean entrepreneurs at each stage of economic development with an analysis of the activities of current entrepreneurs who are at the forefront of the new Korean age It discusses the crucial role of business entrepreneurship in each stage of Korea s transformation from an underdeveloped East Asian backwater to a global manufacturing and technology powerhouse throughout the last 100 years Furthermore it provides an up to date analysis of contemporary start up entrepreneurship in Korea and discusses its unique characteristics strengths and weaknesses Authors identify specific features of entrepreneurship in Korea why and how business entrepreneurs have been so successful and effective how their entrepreneurial styles and activities have changed over time which challenges Korean start up entrepreneurs are currently facing and how these challenges may be addressed

South Korea at the Crossroads Scott A. Snyder,2018-01-02 Against the backdrop of China s mounting influence and North Korea s growing nuclear capability and expanding missile arsenal South Korea faces a set of strategic choices that will shape its economic prospects and national security In **South Korea at the Crossroads** Scott A Snyder examines the trajectory of fifty years of South Korean foreign policy and offers predictions and a prescription for the future Pairing a historical perspective with a shrewd understanding of today s political landscape Snyder contends that South Korea s best strategy remains investing in a robust alliance with the United States Snyder begins with South Korea s effort in the 1960s to offset the risk of abandonment by the United States during the Vietnam War and the subsequent crisis in the alliance during the 1970s A series of shifts in South Korean foreign relations followed the Nordpolitik engagement with the Soviet Union and China at the end of the Cold War Kim Dae Jung s Sunshine Policy designed to bring North Korea into the international community trustpolitik which sought to foster diplomacy with North Korea and Japan and changes in South Korea s relationship with the United States Despite its rise as a leader in international financial development and climate change forums South Korea will likely still

require the commitment of the United States to guarantee its security Although China is a tempting option Snyder argues that only the United States is both credible and capable in this role South Korea remains vulnerable relative to other regional powers in northeast Asia despite its rising profile as a middle power and it must balance the contradiction of desirable autonomy and necessary alliance

Culture Shock for Asians in U.S. Academia Eunkyong Lee Yook, 2013-11-26 Culture Shock for Asians in U S Academia Breaking the Model Minority Myth discusses the unique cultural challenges that Asians face in U S academia The issues facing Asians in academia are worthy of our attention for two major reasons the numerical significance of Asians in U S academia and the fact that their problem has been largely eclipsed due to their visible success and status as model minority Asian immigrants are often called the model minority because of their Confucianist work ethic and emphasis on ye or social order as well as the high value placed on education Additionally Asians generally have often been stereotyped as excelling in academics However they face serious problems in adjusting to the U S academic system These problems are due to cultural patterns and variables that are largely invisible yet nonetheless have an undeniable impact on academics The issues that affect students ranging from kindergarten through graduate school and that also affect scholars in academic careers beyond the formative process are reviewed systematically in this book Analysis of issues is based on intercultural communication theories and suggestions for overcoming these challenges are suggested Becoming aware of and addressing the roadblocks for Asians is important not only for Asian students and scholars but also for educators education administrators and institutions Additionally helping Asians to overcome the challenges in academia not only helps academia to become a more inclusive place where all students can learn and all scholars can work in academia successfully it also benefits society by producing a more literate educated and qualified workforce overall By promoting understanding of this important topic in a systematic and theoretic fashion valuable resources can be realized to their full potential

Engineering Asia Hiromi Mizuno, Aaron S. Moore, John DiMoia, 2018-08-09 Weaving together chapters on imperial Japan s wartime mobilization Asia s first wave of postwar decolonization and Cold War geopolitical conflict in the region Engineering Asia seeks to demonstrate how Asia s present prosperity did not arise from a so called economic miracle but from the violent and dynamic events of the 20th century The book argues that what continued to operate throughout these tumultuous eras were engineering networks of technology Constructed at first for colonial development under Japan these networks transformed into channels of overseas development aid that constituted the Cold War system in Asia Through highlighting how these networks helped shape Asia s contemporary economic landscape Engineering Asia challenges dominant narratives in Western scholarship of an economic miracle in Japan and South Korea and the Asian Tigers of Southeast Asia Students and scholars of East Asian studies development studies postcolonialism Cold War studies and the history of technology and science will find this book immensely useful

Management Martin Hemmert,2012-10-02 Throughout the last several decades Korean companies have entered the world markets in a wide range of manufacturing industries with great success How did they achieve this exceptional performance This book uncovers the secret of their performance through a comprehensive analysis of the Korean management system It explains to an international audience how it has developed why it works so well and what non Koreans can learn from it The book analyzes the management of Korean firms from three different perspectives First a historical perspective is applied by showing how Tiger Management has emerged and how it has been continuously advanced over the last 50 years The breathtaking stories of how Korean companies seemingly coming from nowhere have challenged their Western and Japanese competitors on the world markets are told Second the cornerstones of Tiger Management are analyzed from a functional viewpoint showing that the success of Korean companies rests on a smart combination of business strategy leadership and human resource management practices Finally the present and future of Tiger Management is discussed by showing how Korean companies have adapted to changes in their business environment at home and abroad and what non Korean companies can learn from their Korean rivals The book gives an up to date analysis of Korean management practices from a global perspective It identifies the success factors of Korean companies long term aggressive and persisting business planning speed flexibility strong leadership strong teamwork and high investment into human skills and capabilities It illustrates how these management practices complement each other and provides non Korean companies with signposts how they can adopt them

Made in Korea Richard M. Steers,2013-08-21 American business folklore is awash with the adventures of successful entrepreneurs Still most of these stories are about Americans neglecting important and courageous entrepreneurs from other countries Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world s largest and most successful building empires Hyundai through a combination of creative thinking tenacity timing political skills and a business strategy that few competitors ever understood Chung entered the shipbuilding business with no experience and went on to create the world s largest shipyard He began making automobiles when foreign experts unanimously predicted he would fail and he started a global construction company that has built some of today s greatest architectural wonders He even convinced the International Olympic Committee to select South Korea over Japan as the site

for the highly successful 1988 Olympics Unlike most CEO s of major firms Chung has always preferred the company of his workers to that of the global executive elite Hard work creativity and a capacity to never give up this is the essence of Chung s life In each of his ventures he exhibited a sheer determination to succeed regardless of the obstacles and he worked tirelessly to instil this drive in all of his employees Even today in the midst of Korea s worst economic crisis in over four decades Chung s company is busy implementing plans to emerge as an even stronger contender in the world economy Illustrated with 32 pages of colour photographs not previously seen in the West including photos of Chung s recent historic visit to North Korea in 1998 Made in Korea takes stock of Chung s entire life highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs *Política externa* ,2007 **Steel Odyssey** Ohjoon KWON,JOO Choi,Hae-Geon LEE,2024-07-15 In this wide ranging interdisciplinary work the authors draw on history anthropology and materials engineering to present a comprehensive and ambitious examination of the multifaceted roles of iron and steel throughout history and the current and future challenges faced by the steel industry Ohjoon Kwon Joo Choi and Hae Geon Lee provide readers with an in depth understanding of the history of iron and steel and their impact on human society from a materials engineering perspective They begin by describing the characteristics of iron and steel and the history of human use of and interaction with these metals by compiling the fundamental knowledge necessary to understand iron s unique properties and metallurgical phenomena Following this they explain the influence of steel on human society and culture focusing on Industrial Revolution and warfare They also give examples that are rarely discussed elsewhere such as developments in Asia or iron s influence on thought and philosophy using Confucianism and Marxism as examples Readers will then be able to apply this contextual knowledge to address the profound impact of emerging challenges such as global environmental issues and the Fourth Industrial Revolution Despite the technical nature of this book all terminology is fully explained to facilitate better comprehension for those who may not possess an engineering education or a direct interest in metallurgy This book is therefore invaluable not only as a technical book but also as a guide to the development history of human civilization and its future challenges **Flowers of Fire** Hawon Jung,2023-03-07 Listed in the best books of 2023 by The Economist Invigorating debut a full throated rallying cry Publishers Weekly One of Ms Magazine s most anticipated feminist books of 2023 An eye opening firsthand account of the ongoing and trailblazing feminist movement in South Korea one that the world should be watching Since the beginning of the MeToo movement tens of thousands of people in South Korea have taken to the street and many more brave individuals took a stand to end a decades long abortion ban and bring down powerful men accused of sexual misconduct including a popular presidential contender South Korean feminists know that the revolution has been a long time coming between battles against its own patriarchal society as well as challenging stereotypes of docile Asian women in the Western imagination Now author Hawon Jung will show the rest of the world that these women are no delicate flowers they are trailblazing flames Flowers of Fire takes the reader into the trenches of this

fight for equality following along as South Korean activists march on the streets navigate public and private spaces where spycam porn crimes are rampant and share tips and tricks with each other as they learn how to protect themselves from harassment and how to push authorities to act Jung the former Seoul correspondent for the AFP draws on her on the ground reporting and interviews with many women who became activists and leaders from the elite prosecutor who ignited the country's MeToo movement to the young women who led the war against non consensual photography Their stories though long overlooked in the West mirror realities that women across the world are all too familiar with threats of defamation lawsuits to silence victims of assault tech based sexual abuse and criminal justice systems where victims voices are often met with suspicion and abusers downfalls are met with sympathy These are the issues at the heart of their MeToo movement and South Korean women have fought against them vigorously and with extraordinary success In Flowers of Fire Jung illuminates the strength and tenacity of these women too often sidelined in global conversations about feminism and gender equality
