Managing A Consumer Lending Business 2nd Edition:

Managing a Consumer Lending Business David Lawrence, Arlene Solomon, 2013-03-08 *Managing a Consumer Lending Business* 2nd edition summarizes the lore and knowledge of the business in the early 21st century. It covers many subjects a good manager should know: the importance of how to attract enough good accounts to offset the inevitable bad accounts that every lender will get; controlling line sizes; encouraging use by good customers; controlling the use by bad customers; managing profitability with predictability if he or she is to effectively run a high volume consumer business. The second edition covers some of the problems the financial services industry experienced in the early 2000s and some of the resulting regulations implemented. The updated MIS demonstrates and compares this later period to earlier results for the industry.

Managing a Consumer Lending Business David B. Lawrence, Arlene Solomon, 2002-07-01 [Paying with Plastic, second edition](#) David S. Evans, Richard Schmalensee, 2004-12-17 The definitive account of the trillion dollar payment card industry. The payment card business has evolved from its inception in the 1950s as a way to handle payment for expense account lunches, the Diners Club card, into today's complex sprawling industry that drives trillions of dollars in transaction volume each year. *Paying with Plastic* is the definitive source on an industry that has revolutionized the way we borrow and spend. More than a history book, *Paying with Plastic* delivers an entertaining discussion of the impact of an industry that epitomizes the notion of two-sided markets: those in which two or more customer groups receive value only if all sides are actively engaged. New to this second edition, the two-sided market discussion provides useful insight into the implications of these market dynamics for cardholder rewards, merchant interchange fees, and card acceptance. The authors, both of whom have researched the industry for more than 25 years, also examine the implications of the recent antitrust cases on the industry as well as other business and technological changes, including the massive consolidation brought about by bank mergers, the rise of the debit card, and the emergence of e-commerce that could alter the payment card industry dramatically in the years to come. Service, Satisfaction and Climate John Walker, 2010 *Service Satisfaction and Climate: Perspectives on Management in English Language Teaching* presents the results of research carried out in New Zealand to demonstrate the ways ELT can be conceptualized in terms of service and climate. Although ESL is a major worldwide service industry employing large numbers of professionals and serving millions of clients, it is an under-researched field and one that is under-represented in the management business literature. This omission is particularly noticeable given that ELT has its own particular themes, problems, and issues. For instance, ELT is an educational service yet exists within a commercial context. Its clients are from different cultural and linguistic backgrounds. In many ELT contexts, the cultural and linguistic backgrounds of the service providers are different from those of the clients. Thus, the service provision has a strong cross-cultural dimension. Yet the ELT sector is largely missing from the educational and the management literature. This book seeks to fill the gap through discussion of ELT as a service, issues surrounding ELT teachers as service
