questions     *Managing Across Cultures* Susan C. Schneider and Jean-Louis Barsoux, 2003     **A Paradigm for Business Communication across Cultures: Theoretical Highlights for Practice** Dr. Yongqiang LIU  □□, 2015-01-01 Today's global citizens operate business and management endeavors on a global scale. Globalization generates an increasing demand for effective communication in diverse cultural contexts and challenges the relevance of culture in operating businesses in the global village. Communication differences are apparent in many scenarios. Expatriates of international organizations operating abroad adopt their native cultural values to motivate employees of foreign cultures with an entirely different perspective. They use one culture's motives to move people from other cultures. In global marketing communication, the communicators use values systems of their native culture to develop advertising for other cultures. They use categorizations of one culture to describe others. Such divergence in attitudes, perspectives, and priorities of suppliers and customers with different cultural backgrounds have led to many project failures in international organizations. An in-depth understanding of cultural backgrounds and the potential impact on communication of the people one is interacting with can increase the probability of business success among investors, managers, entrepreneurs, and employees operating in diverse cultures. However, effective cross-cultural business communication needs to recognize and adopt an interdisciplinary perspective in understanding the cultural forces. Leung K et al. 2005. Therefore, we need a multidisciplinary paradigm to carry on effective and successful business communication in our contemporary global village.

-----  
-----     The Eight Universal Dimensions of Culture from a Synthesis of Cultural Taxonomies Sophie Kunert, 2022-08-29  
The crucial element of this book constitutes the synthesis of cultural dimensions from existing cultural taxonomies extended by the operationalization of the eight identified Universal Dimensions of Culture (UDCs) into a questionnaire. First, an extensive Systematic Literature Review (SLR) is pursued to identify the current state of research demonstrating the research gap on a unified approach for classifying national cultures into cultural dimensions. Eight assumptions displaying the eight UDCs are derived from the results of the SLR. Subsequently, an evaluation and selection framework for identifying the research base of comparable existing cultural taxonomies is developed. A research base of 11 cultural taxonomies and 50 cultural dimensions is retrieved. These serve as the basis for developing the eight UDCs following a synthesis process and protocol. The eight UDCs are operationalized into a questionnaire which is extensively pre-tested by experts and in the field. An example country study for Germany, Canada, and Brazil is conducted, and the corresponding country profiles for the eight UDCs are displayed.

**International Management: Managing Cultural Diversity** Helen Deresky, Elizabeth Christopher, 2015-05-20
