Managing Human Resources 7th Edition Powerpoint:

Public Personnel Management Jared J. Llorens, 2017-12-14 Now in a thoroughly revised 7th edition *Public Personnel Management* focuses on the critical issues and common processes in the management of public sector personnel. In keeping with prior editions the text centers on the core processes within public human resource management: strategic workforce planning, effective recruitment and retention, workforce development, and employee relations. Designed to further address the ways in which expectations for human resource managers have changed and developed in recent years, the 7th edition includes several new features and improvements: Substantially restructured, updated, and additional case studies and student exercises; Coverage of how the field of Public HRM has been influenced by the two most recent national recessions, economic downturns at the state and local level, privatization, and contracting trends at all levels of government; the growing presence of millennial employees in the workplace; issues surrounding social media use within the workplace; the evolving goals of social equity and diversity; and the shifting role and influence of labor unions. Discussions of how the growth in information technology capabilities has influenced the major processes within HRM, from workforce analysis through big data analytics to the explosion in automated recruitment, assessment, and instructional technologies. For the first time, the text includes an online Instructor's Manual, PowerPoint slides, discussion questions, and suggestions for further reading to make it even easier to assign and use this classic text in the classroom. Providing the most up-to-date and thorough overview of the history and practice of public human resource management for both undergraduate and graduate students, *Public Personnel Management 7e* remains the beloved text it ever was, ideal for introductory courses in *Public Personnel Management*, *Public Human Resource Management*, and *Nonprofit Personnel Management*. **HUMAN CAPITAL DEVELOPMENT IN**

SERVICES JOB Asst. Prof. Dr. Kannapat Kankaew, 2021-03-02 The purpose of this study is to 1) study the level and the differences of development of human capital and human capital competency in aviation and service satisfaction of ground service officers; 2) study the development of human capital that affects the competency of ground service officers; 3) Study the aviation human capital of ground service officers that satisfy the passengers. This research is primarily quantitative research and the qualitative was supplemented by structured in-depth interviews to foster the results. The sampling groups divided into two main groups. The first samples were those who work in the aviation industry, consisting of full service airlines and low cost airlines senior staff level. The second group was full service and low cost airline passengers. The data was collected through questionnaires for quantitative. While the qualitative was conducted by interviewing the airlines executives. Teaching and Learning at a Distance Michael Simonson, Susan M. Zvacek, Sharon Smaldino, 2019-07-01 Teaching and Learning at a Distance is written for introductory distance education courses for preservice or in service teachers and for training programs that discuss teaching distant learners or managing distance education systems This text provides readers with the basic information needed to be knowledgeable distance educators and leaders of distance education programs The teacher or trainer who uses this book will be able to distinguish between appropriate uses of distance education In this text we take the following themes The first theme is the definition of distance education Before we started writing the first edition of Teaching and Learning at a Distance we carefully reviewed the literature to determine the definition that would be at the foundation of our writing This definition is based on the work of Desmond Keegan but is unique to this book This definition of distance education has been adopted by the Association for Educational Communications and Technology and by the Encyclopedia Britannica The second theme of the book was the importance of research to the development of the contents of the book The best practices presented in Teaching and Learning at a Distance are validated by scientific evidence Certainly there are rules of thumb but we have always attempted to only include recommendations that can be supported by research The third theme of Teaching and Learning at a Distance is derived from Richard Clark s famous quote published in the Review of Educational Research that states that media are mere vehicles that do not directly influence achievement Clark s controversial work is discussed in the book but is also fundamental to the book s advocacy for distance education in other words we authors did not make the claim that education delivered at a distance was inherently better than other ways people learn Distance delivered instruction is not a magical approach that makes learners achieve more The fourth theme of the book is equivalency theory Here we presented the concept that instruction should be provided to learners that is equivalent rather than identical to what might be delivered in a traditional environment Equivalency theory helps the instructional designer approach the development of instruction for each learner without attempting to duplicate what happens in a face to face classroom The final theme for Teaching and Learning at a Distance is the idea that the book should be comprehensive that it should cover as much of the various ways instruction is made available to distant learners as is possible It should be a single source of information about the field
