**Specialised Dictionaries for Learners** Pedro A. Fuertes-Olivera, 2010-03-26 The need for constructing a lexicographical theory with a particular focus on specialised dictionaries for learners is well documented in recent publications This will imply paying attention to at least four basic lexicographic categories learners the learner s situation the learner s needs dictionary assistance In one or other way these categories are analysed in this book whose eleven chapters are grouped into three parts Part 1 reflects on some of the main ideas defended by the function theory of lexicography perhaps the theoretical framework that has paid more attention to specialised lexicography Part 2 presents some proposals that have already been explored in the field of general learner s dictionary and must be incorporated into specialised metalexicography cultural aspects figurative meaning the inclusion of

grammatical information the use of corpora Part 3 introduces the state of play regarding specialised dictionaries in China and offers some ideas for coping with the proliferation of terminological glossaries in Internet The book also describes Enrique Alcaraz s academic achievements together with some personal anecdotes and a personal short tribute to his memory

*Beyond Concordance Lines* Pascual Pérez-Paredes, Geraldine Mark, 2021-12-15 In over 30 years of data driven learning DDL research there has been a growing sophistication in the ways we collect analyse and put corpus data to use This volume takes a three fold perspective on DDL It first looks at DDL and its role in informing language learning theory and how it might shed light on the language development process secondly it addresses how DDL can help us characterise learner language and inform teaching accordingly and thirdly it showcases practical applications for the use of DDL in classrooms The contributors to this volume examine a variety of instructional settings and languages across the world They reflect on theoretical methodological and classroom implications using both novel and established language learning theories natural language processing NLP longitudinal research designs and a variety of language learning targets The present volume is an invitation from some of the leading researchers in DDL to reflect on the research avenues that will define the field in the coming years

Cognitive Linguistic Approaches to Teaching Vocabulary and Phraseology Frank Boers, Seth Lindstromberg, 2008 Review text This volume one in a series of applications of cognitive linguistics revolves around the importance of figurative thought and linguistic iconicity for vocabulary acquisition Being mainly devoted to phraseology it is an important contribution to an area in need of attention For this reason alone it is a useful resource for SLA researchers in particular for those involved in the training of language teachers Kirsten Haastrup in *Studies in Second Language Acquisition* 4 2009
