Competency-Based Approach for Student Leadership Development Corey Seemiller, 2018-01-12 Looking to foster student leadership competency development? With this volume, you'll gain the latest research, resources, and tools to do just that. There are many factors to consider when providing educational experiences that foster student leadership competency development. But the process of designing, facilitating, and assessing these experiences to be both effective and meaningful can be elusive and challenging. In this volume, a variety of scholars offer diverse perspectives and nuanced expertise that address the following questions: What leadership competencies are the most critical for students to develop? How can we ensure students are ready to develop leadership competencies? What instructional strategies and program design elements can we use to effectively enhance leadership competency development? How do we help students and educators track and measure leadership competency learning and growth? The Jossey-Bass quarterly report series, *New Directions for Student Leadership*, explores leadership concepts and pedagogical topics of interest to high school and college leadership educators. Issues are grounded in scholarship and feature practical applications and best practices in youth and adult leadership education. **The Routledge International Handbook of Social Work Teaching** Jarosław Przeperski, Rajendra

Baikady, 2024-04-09 This handbook is a comprehensive text on social work education based on the narratives of social work educators, practitioners, and researchers from Asia and the Pacific, North and South America, Australia, and Oceania, and Europe. It discusses innovations, challenges, pedagogy, and tested methods of social work teaching at various levels of educational programmes. The volume examines key concepts that underpin debates concerning social work teaching, research, and practice. It brings out key concerns, debates, and narratives concerning various teaching, learning, and pedagogical methods from different countries. It documents principal perspectives of different stakeholders involved in social work education, from educators and practitioners to novice social workers. **The Routledge International Handbook of Social Work**

Teaching will be an effective instrument in informing policy decisions related to social work teaching and pedagogy at the global and local levels. It will be essential for educators, researchers and practitioners within social work institutions and for professional associations around the world.

Competence-Based Innovation in Hospitality and Tourism Harald Pechlaner, Elisa Innerhofer, 2016-04-14 Dr Pechlaner and Dr Innerhofer, the editors of *Competence Based Innovation in Hospitality and Tourism* argue that the industry operates within highly challenging and competitive environments. Changing environmental and market conditions continually force hotel businesses and service providers to offer their customers new and modified products and services in order to remain competitive. Those which respect value perceptions of markets and sustainable stakeholder reactions. This then raises the question of how innovations within this industry must be developed in order to achieve competitive differentiation. The book demonstrates that the development and analysis of successful innovation strategies should integrate the resource based view and its advancements, the competence based view as well as the dynamic capabilities approach and the relational view. Resource based strategic management approaches view the firm as a bundle of resources and competences. They point to the importance of firm specific resources and competences in explaining variations in competitive positions and performance differentiation between companies. The challenge of hospitality and tourism is to develop resources and competences that drive innovations. This book will serve to advance the status quo of tourism research literature by combining innovation theories with network theories and tourism and destination development by illustrating the development of cooperative competences and innovations in tourism and by showing in a tailored way how the challenge of the development of resources and competences that drive innovations in tourism can be managed.

Building Education and Research Jay Yang, Weilen P. Chang, 2005-08-17 *Building Education and Research* explores this new active area of research in a series of papers by internationally acclaimed experts presented at the CIB W89 International Conference on Building Education and Research held in July 1998 BEAR 98 in Brisbane Australia. Sponsored in collaboration jointly by the Queensland University of Technology, the Conseil International du Batiment CIB and the Australian Institute of Building AIB, the conference was organised around the theme Building Research and Education Beyond 2000 and looks at the factors that are changing the requirements of building education and research: economic and technological concerns, environmental concerns, government policies, industries demands, re-evaluation of community expectations.
