Managing The Professional Service Firm David H Maister:

Managing The Professional Service Firm David H. Maister, 1993 International expert and consultant David Maister offers a brilliant and accessible guide to every management issue at play in professional firms Professional firms differ from other business enterprises in two distinct ways first they provide highly customized services and thus cannot apply many of the management principles developed for product based industries Second professional services are highly personalized involving the skills of individuals Such firms must therefore compete not only for clients but also for talented professionals Drawing on more than ten years of research and consulting to these unique and creative companies David Maister explores issues ranging from marketing and business development to multinational strategies human resources policies to profit improvement strategic planning to effective leadership While these issues can be complex Maister simplifies them by recognizing that every professional service firm in the world regardless of size specific profession or country of operation has the same mission statement outstanding service to clients satisfying careers for its people and financial success for its owners *Summary of David H. Maister's Managing The Professional Service Firm* Everest Media, 2022-06-09T22:59:00Z

Please note This is a companion version not the original book Sample Book Insights 1 The mission of every professional service firm is to deliver outstanding client service provide fulfilling careers and professional satisfaction for their employees and achieve financial success so that they can reward themselves and grow 2 The required shape of the organization is primarily determined by the skill requirements of its work For Brains projects which involve highly skilled and highly paid professionals the opportunities to leverage the top professionals with juniors are limited 3 The three categories of project types are those that involve the highest proportion of junior time those that involve the highest proportion of senior time and those that involve both junior and senior time The choice of project types is one of the most important variables available to balance the firm 4 The archetypal structure of the professional service firm is an organization containing three professional levels In a consulting organization these levels might be labeled junior consultant manager and vice president In a CPA firm they might be referred to as staff manager and partner **First Among Equals** Patrick J. McKenna, David H.

Maister, 2010-05-11 Professional service gurus David Maister and Patrick McKenna have created a practical handbook on how to lead professional colleagues or peers when you lack formal authority Harvard Business School's Working Knowledge calls it a timely easy to read work leavened with action plans and examples Whether you have recently been appointed as a group leader or are a battle scarred veteran you know that managing professional people is difficult In this unique handbook Patrick J McKenna and David H Maister argue that leaders will best enable their people to achieve peak performance not by managing them not by leading them but by inspiring them The authors show you how to actually add value as a group leader or induce people to accept your guidance even with intelligent professionals who are often free agents accustomed to having autonomy to work on grueling assignments with little supervision They also give advice on how to handle those oh so talented

but oh so annoying professionals who exhibit attitude problems or are just exceedingly difficult to work with when you need them but they tend to needle you The lessons and learning presented here will give you insights and action tips to help you provoke and inspire your people to their full potential Managing The Professional Service Firm David H.

Professional Service Firms Dirk Harlacher,2010 *True Professionalism* David H. Maister,Robert Galford,Charles Green,2012-12-11 Are some technically competent professionals who work hard and long hours true professionals or are they just cruisers In this deeply illuminating call to arms David Maister the world s premier consultant to professional service firms vigorously challenges individuals to examine closely the meaning of their work and reach beyond their grasp The pursuit of the highest standards Maister argues is the primary road to commercial success He presents a visionary reconception of professionalism that encompasses a lifelong dedication to self improvement a personal commitment to excellence and a true spirit of service to clients Looking first at the individual professional Maister dares those good corporate citizens who do their duty to discover what they truly love to do Turning to the institution Maister focuses on what he calls the instability of professional service firms today and offers advice on how to invest in skill building David Maister s message is a recipe for success and for professional satisfaction making TRUE PROFESSIONALISM a worthy successor to his

previous writings **Managing the Professional Service Firm** David H. Maister,1993 The Trusted Advisor David H. Maister,Charles H. Green,Robert M. Galford,2014-05-09 In order to survive today s professionals must earn the trust of their clients and re earn it throughout their careers This is a dynamic must listen for successfully negotiating relationships in today s bold new economy **The Architect's Handbook of Professional Practice** American Institute of Architects,2011-09-26 Architects must be proficient in a variety of business practices to contribute to manage or launch a successful firm They are responsible for the same kind of legal financial marketing management and administrative activities as any other professional Within these broad categories however there are many details including professional standards and documents that are unique to the profession of architecture **Practice What You Preach** David H. Maister,2001-10-18 Firms that are perceived by their employees to actually practice what they preach are more financially successful than their competitors says consultant David H Maister based on a worldwide survey of 139 offices in 29 professional service firms in 15 countries in 15 different lines of business Maister asked the simple question Are employee attitudes correlated with financial success The answer he found was an unequivocal Yes Further the author shows that high levels of employee commitment and dedication cause yes cause a demonstrable measurable improvement in financial performance Maister proves that if your firm doesn t promote enthusiasm and high morale in your employees your firm will make less money So how can you create a culture in your firm that promotes growth and superior financial returns Maister discovered that the most successful firms surveyed excelled by doing well on things to which most if not all firms pay only lip service commitment to clients teamwork high standards employee development and other familiar topics However what distinguishes the best from the rest is that the best live up to their own standards Digging deeper by conducting in depth interviews with managers and employees of the firms he surveyed Maister has found that the key to success is not the systems of the firm but the character and skills of the individual manager He explores in detail the central role of the manager what he or she must do and must require of others The reader will find specific action recommendations from the managers and employees of these superstar businesses on how to build an energized workplace enforce standards of excellence develop people and have fun all as powerful profit improvement tactics Practice What You Preach can help any manager increase firm growth and profitability and will provide proof to firm executives that great financial rewards come from living up to the high standards that most businesses advocate but few achieve Business Solutions on Demand Mark Vincent Cerasale,Merlin Stone,2005 It argues convincingly that companies should look at what solutions they can provide consumers with rather than looking at what products they can foist upon them This is an effective guide to delivering real value to the customer through genuine innovative thinking The Marketer One of the most successful business solutions tomes ever published PCPlus Business Based partly on IBM s own transformation and partly on the transformations that IBM has helped its clients to achieve this ground breaking book shows how companies can increase sales and improve margins by

introducing a range of solutions Highly readable motivational and fast paced Business Solutions On Demand is packed with examples from many diverse industries The authors emphasize that for today s business to compete and survive it has to exceed the expectations of its customers Technological advancement globalization increased competition market saturation and easy access to information are all conspiring to make traditional business models redundant *The Professional Services Firm Bible* John Baschab,Jon Piot,2004-12-17 Spanning everything from legal firms and architects to fundraisersand dentists the professional services industry continues toexperience spectacular growth yet remains largely undocumented inbusiness literature Until now The Professional Services Firm Bible is a sophisticatedand comprehensive guide to running a highly productive professionalsservices organization Top consultants John Baschab and Jon Piotprovide specific and sharply defined policies practices and toolsfor each important aspect of managing the professional servicesfirm allowing you to assess current operations and develop astep by step plan for realising measurable productivityimprovements Further the book will help you improve financialperformance by managing costs getting the most from externalvendors and improving revenues The Professional Services Firm Bible is full of bestpractices proven advice and practical techniques and includes aCD ROM with customizable tools every professional services firm canuse to achieve improvements Please visit [www iig1 com](http://www.iig1.com) and[www impactinsights com](http://www.impactinsights.com)for more information on the book and top consultants John Baschaband Jon Piot

The Vanishing American Lawyer Thomas D. Morgan, 2010-02-01 Over 4 000 lawyers lost their positions at major American law firms in 2008 and 2009 In The Vanishing American Lawyer Professor Thomas Morgan discusses the legal profession and the need for both law students and lawyers to adapt to the needs and expectations of clients in the future The world needs people who understand institutions that create laws and how to access those institutions works but lawyers are no longer part of a profession that is uniquely qualified to advise on a broad range of distinctly legal questions Clients will need advisors who are more specialized than many lawyers are today and who have more expertise in non legal issues Many of today s lawyers do not have a special ability to provide such services While American lawyers have been hesitant to change the ways they can improve upon meeting client needs lawyers in other countries notably Great Britain and Australia have been better at adapting Law schools must also recognize the world their students will face and prepare them to operate successfully within it Professor Morgan warns that lawyers must adapt to new client needs and expectations The term professional should be applied to individuals who deserve praise for skilled and selfless efforts but this term may lead to occupational suicide if it becomes a justification for not seeing and adapting to the world ahead
