Divergences in Private Law Andrew Robertson, Michael Tilbury, 2016-01-28 This book is a study of doctrinal and methodological divergence in the common law of obligations It explores particular departures from the common law mainstream and the causes and effects of those departures Some divergences can be justified on the basis of a need to adapt the common law of contract torts equity and restitution to local circumstances or to bring them into conformity with local values More commonly however doctrinal or methodological divergence simply reflects different approaches to common problems or different views as to what justice or policy requires in particular circumstances In some instances divergent methodologies lead to substantially the same results while in others particular causes of action defences immunities or remedies recognised in one jurisdiction but not another undoubtedly produce different outcomes Such cases raise interesting questions as to whether ultimate appellate courts should be slow to abandon principles that remain well accepted throughout the common law world or cautious about taking a uniquely divergent path The chapters in this book were originally presented at the Seventh Biennial Conference on the Law of Obligations held in Hong Kong in July 2014 A separate collection entitled *The Common Law of Obligations Divergence and Unity* ISBN 9781782256564 is also being published
