Multimedia Systems Design Prabhat K. Andleigh, Kiran Thakrar, 1996 Informative as well as tutorial this book explores the design of advanced multimedia systems in depth the characteristics of multimedia systems the design challenges the emerging technologies that support advanced multimedia systems design methodologies and implementation techniques for converting the design to produce efficient flexible and extensive applications High Performance Networks Ahmed N. Tantawy, 1994 The world of information processing is going through a major phase of its evolution Networking has been associated with computers since the 1960 s Communicating machines exchanging information or cooperating to solve complex problems were the dream of many scientists and engineers Rudimentary networks and protocols were invented Local area networks capable of carrying a few megabits per second became basic components of corporate computing installations in the 1980 s At the same time advances in optical transmission and switching technologies made it possible to transfer billions of bits per second The availability of this huge bandwidth is making people wonder about the seemingly unlimited possibilities of these fat information pipes A new world where all interesting up to date information becomes instantaneously available to everyone everywhere is often portrayed to be around the corner New applications are envisioned and their requirements are defined The new field of High Performance Networking is burgeoning with activities at various levels Several frontiers are being explored simultaneously In order to achieve more bandwidth and better performance work is progressing in optical transmission high speed switching and network resource management Some researchers have started to investigate all optical networking as a promising approach to remove the relatively slow electronics from the network infrastructure This will also introduce a new environment with unique characteristics that will have a definite impact on network architectures topologies addressing schemes and protocols *Abstracts of Science and Technology in Japan* ,1985 2000 IEEE International Conference on Multimedia and Expo, ICME2000: Monday ,2000
