Music and the Making of Modern Japan answers these questions Discussing musical modernization in the context of globalization and nation building Margaret Mehl argues that far from being a side show music was part of the action on centre stage Making music became an important vehicle for empowering the people of Japan to join in the shaping of the modern world In only fifty years from the 1870s to the early 1920s Japanese people laid the foundations for the country's post war rise as a musical as well as an economic power Meanwhile new types of popular song fuelled by the growing global record industry successfully blended inspiration from the West with musical characteristics perceived as Japanese Music and the Making of Modern Japan represents a fresh contribution to historical research on making music as a major cultural social and political force *Understanding the Music Business* Dick Weissman,2017-05-12 In today's fast moving music industry what does it take to build a life long career Now more than ever all those working in music need to be aware of many aspects of the business and take control of their own careers *Understanding the Music Business* offers students a concise yet comprehensive overview of the rapidly evolving music industry rooted in real world experiences Anchored by a wealth of career profiles and case studies this second edition has been updated throughout to include the most important contemporary developments including the advent of streaming and the shift to a DIY paradigm A new *Both Sides Now* feature helps readers understand differing opinions on key issues Highly readable *Understanding the Music Business* is the perfect introduction for anyone seeking to understand how musical talents connect to making a living **Gender, Subjectivity, and Cultural Work** Christina Scharff,2017-09-27 What is it like to work as a classical musician today How can we explain ongoing gender racial and class inequalities in the classical music profession What happens when musicians become entrepreneurial and think of themselves as a product that needs to be sold and marketed *Gender Subjectivity and Cultural Work* explores these and other questions by drawing on innovative empirical research on the working lives of classical musicians in Germany and the UK Indeed Scharff examines a range of timely issues such as the gender racial and class inequalities that characterise the cultural and creative industries the ways in which entrepreneurialism as an ethos to work on and improve the self is lived out and the subjective experiences of precarious work in so called creative cities Thus this book not only adds to our understanding of the working lives of artists and creatives but also makes broader contributions by exploring how precarity neoliberalism and inequalities shape subjective experiences Contributing to a range of contemporary debates around cultural work *Gender Subjectivity and Cultural Work* will be of interest to scholars and students in the fields of Sociology Gender and Cultural Studies *El Sistema* Geoffrey Baker,2014 The Venezuelan youth orchestra programme known as *El Sistema* has garnered global renown through its claims to use classical music education to foster social inclusion Yet it has been the subject of surprisingly little scrutiny and genuine debate In this critical study of the programme Geoffrey Baker explores the career of its founder Jos Antonio Abreu and the ideology and organizational dynamics of his institution *Musicians from a Different Shore* Mari Yoshihara,2008-05-02 Musicians of Asian descent enjoy unprecedented

prominence in concert halls conservatories and classical music performance competitions In the first book on the subject Mari Yoshihara looks into the reasons for this phenomenon starting with her own experience of learning to play piano in Japan at the age of three Yoshihara shows how a confluence of culture politics and commerce after the war made classical music a staple in middle class households established Yamaha as the world s largest producer of pianos and gave the Suzuki method of music training an international clientele Soon talented musicians from Japan China and South Korea were flocking to the United States to study and establish careers and Asian American families were enrolling toddlers in music classes Against this historical backdrop Yoshihara interviews Asian and Asian American musicians such as Cho Liang Lin Margaret Leng Tan Kent Nagano who have taken various routes into classical music careers They offer their views about the connections of race and culture and discuss whether the music is really as universal as many claim it to be Their personal histories and Yoshihara s observations present a snapshot of today s dynamic and revived classical music scene

In 1990 American television experienced a seismic shift when *Twin Peaks* premiered eschewing formulaic plots and clear lines between heroes and villains. This game changing series inspired a generation of show creators to experiment artistically transforming the small screen in ways that endure to this day. Focusing on six shows *Twin Peaks* with a critical analysis of both the original series and the 2017 return *The Wire* *Treme* *The Sopranos* *Mad Men* and *Girls* *Television Rewired* explores what made these programs so extraordinary. As their writers and producers fought against canned plots and moral simplicity they participated in the evolution of the exhilarating new auteur television while underscoring the fact that art and entertainment don't have to be mutually exclusive. Nochimson also makes provocative distinctions between true auteur television and shows that were inspired by the freedom of the auteur series but nonetheless remained entrenched within the parameters of formula. Providing opportunities for vigorous discussion *Television Rewired* will stimulate debates about which of the new television series since 1990 constitute art and which are tweaked business driven storytelling.
