America's Two Foundations Wayne S. Matulis, 2020-06-25 Words and ideas have consequences Those who will change the meaning of words will change the rules and the laws to suit themselves so they can accomplish their personal agenda Deadly ideas lay at the bottom of one of America's two foundations Inscribed on the walls of some of the Capitol's buildings and monuments are these immortal truths Where law ends tyranny begins To render every man his due Conservation means development as much as it does protection Eternal vigilance is the price of liberty What is past is prologue The following are quotes from the book America's Two Foundations A Solid Rock Or Sinking Sand A parasite is an organism that lives off the life force of another organism without contributing to the life force of the other These people of other faiths and no faith are living off the spiritual capital of the Judeo Christian civilization and at the same time they deny the God who revealed the divine principles upon which the ethics of the country grow Locked inside the Independence Hall I found myself alone with the spirits of the Founders What can you say about a country that even protects the rights of those who are trying to destroy it Upon laying the chief cornerstone of the US capital on September 18 1793 George Washington and others laid the first foundations to the new republic And they assumed the mantles as high priests of this new temple in Washington DC thus establishing the New Order of the Ages Who are these high priests You must read America's Two Foundations A Solid Rock Or Sinking Sand to find out

The Story Behind the Holocaust Natalie Silverman,2013 Just as Hitler wanted a New World Order we now have a new world order also called Globalism taking shape We must all face the challenges of giving up our national sovereignty many of our constitutionally guaranteed freedoms peace and prosperity We must consider the reality of One World Government and One World Religion We must consider The European Union The North American Free Trade Agreement The World Trade Organization Agreement and numerous other such little discussed Agreements We must consider The United Nations Report of the Commission on Global Governance along with its Agenda 21 sustainability and population reduction because it is easier for the powers that be like the Trilateral Commission and their associates to control a population of 1.5 billion rather than 8 or more billion people The Global 2000 Report The Charter of Economic Right and Freedoms are largely being dismissed Why Herein we discuss the almost inexplicable ethical and philosophical reasons much of the world has long hated the Jewish peoples the Gypsy peoples the Aborigines and the disabled of any and all nations This book is a thought provoking attempt to reveal how money and power become concentrated in the hands of a few well known well respected evil beings their families their secret societies and often their religious organizations These same families and organizations have through psychological conditioning of populations through the centuries maintained control of societies policies and history

Ritual America Craig Heimbichner,Adam Parfrey,2012-03-06 Adam Parfrey is one of the nation s most provocative publishers Seattle Weekly Secret society historian Craig Heimbichner follows the Middle Path to wisdom He works the graveyard shift in the secret lodge Joan d Arc Paranoia magazine Secret societies now a staple of bestseller novels are pictured as sinister cults that use hooded albinos to menace truth seekers Some conspiracy books claim that fraternal orders are the work of serpentine aliens and interbred humans who wish to supplant earth of its energy and later its very existence On the other side of the aisle books by high ranked Freemasons skeptical in tone but no less partisan in approach protect their organization s public image by denying the existence of its most contentious ideas Ritual America reveals the biggest secret of them all that the influence

of fraternal brotherhoods on this country is vast fundamental and hidden in plain view In the early twentieth century as many as one third of America belonged to a secret society And though fezzes and tiny car parades are almost a thing of the past the Gnostic beliefs of Masonic orders are now so much a part of the American mind that the surrounding pomp and circumstance has become faintly unnecessary The authors of *Ritual America* contextualize hundreds of rare and many never before printed images with entertaining and far reaching commentary making an esoteric subject provocative exciting and approachable Adam Parfrey is the author of *Cult Rapture Revelations of the Apocalyptic Mind* and *It's a Man's World Men's Adventure Magazines the Postwar Pulp* He is editor of the influential *Apocalypse Culture* series *Love Sex Fear Death The Inside Story of the Process Church of the Final Judgment* Craig Heimlichner has recently appeared on a National Geographic documentary about the Bohemian Grove contributed to the *Feral House* compilation *Secret and Suppressed II* and wrote about the famous occult order the O T O in *Blood and Altar* [The Secret World of Cults](#) Sarah Moran,1999 Presents insight into the beliefs activities and followers of the some of the most unusual organizations on the fringes of society [Secrecy, Law and Society](#) Greg Martin,Rebecca Scott Bray,Miiko Kumar,2015-05-08 Commentators have shown how a culture of security ushered in after the terrorist attacks of 11 September 2001 has involved exceptional legal measures and increased recourse to secrecy on the basis of protecting public safety and safeguarding national security In this context scholars have largely been preoccupied with the ways that increased security impinges upon civil liberties While secrecy is justified on public interest grounds there remains a tension between the need for secrecy and calls for openness transparency and disclosure In law secrecy has implications for the separation of powers due process and the rule of law raising fundamental concerns about open justice procedural fairness and human rights Beyond the counterterrorism and legal context scholarly interest in secrecy has been concerned with the credibility of public and private institutions as well as the legacies of secrecy across a range of institutional and cultural settings By exploring the intersections between secrecy law and society this volume is a timely and critical intervention in secrecy debates traversing various fields of legal and social inquiry It will be a useful resource for academic researchers university teachers and students as well as law practitioners and policymakers interested in the legal and socio legal dimensions of secrecy *The New Underworld Order: Triumph of Criminalism the Global Hegemony of Masonic Intelligence* Christopher Story,2006 *Is it True What They Say About Freemasonry?* Art deHoyos,S. Brent Morris,2004-03-11 This is the Mason's response to the misinformation about their brotherhood that exists today **The British National Bibliography** Arthur James Wells,2009 *Keats, Hermeticism, and the Secret Societies* Jennifer N. Wunder,2016-04-22 Jennifer Wunder makes a strong case for the importance of hermeticism and the secret societies to an understanding of John Keats's poetry and his speculations about religious and philosophical questions Although secret societies exercised enormous cultural influence during the late eighteenth and early nineteenth centuries they have received little attention from Romantic scholars And yet information about the societies permeated all aspects of

Romantic culture Groups such as the Rosicrucians and the Freemasons fascinated the reading public and the market was flooded with articles pamphlets and books that discussed the societies s goals and hermetic philosophies debated their influence and drew on their mythologies for literary inspiration Wunder recovers the common knowledge about the societies and offers readers a first look at the role they played in the writings of Romantic authors in general and Keats in particular She argues that Keats was aware of the information available about the secret societies and employed hermetic terminology and imagery associated with these groups throughout his career As she traces the influence of these secret societies on Keats s poetry and letters she offers readers a new perspective not only on Keats s writings but also on scholarship treating his religious and philosophical beliefs While scholars have tended either to consider Keats s aesthetic and religious speculations on their own terms or to adopt a more historical approach that rejects an emphasis on the spiritual for a materialist interpretation Wunder offers us a middle way Restoring Keats to a milieu characterized by simultaneously worldly and mythological propensities she helps to explain if not fully reconcile the insights of both camps

Hope and Fear Ronald H. Fritze, 2022-04-18 A myth busting journey through the twilight world of fringe ideas and alternative facts Is a secret and corrupt Illuminati conspiring to control world affairs and bring about a New World Order Was Donald Trump a victim of massive voter fraud Is Elizabeth II a shapeshifting reptilian alien Who is doing all this plotting In Hope and Fear Ronald H Fritze explores the fringe ideas and conspiracy theories people have turned to in order to make sense of the world around them from myths about the Knights Templar and the Ten Lost

Tribes of Israel to Nazis and the occult the Protocols of Zion and UFOs As Fritze reveals when conspiracy theories myths and pseudo history dominate a society's thinking facts reality and truth fall by the wayside *Subversive Sublimities* Eitel Friedrich Timm, 1992 This anthology of critical essays pursues a field of scholarship that has only recently caught fire the dark side of the German Enlightenment The most prominent of German enlightened poets and thinkers Goethe Schiller Lichtenberg Tieck among others were conspicuously prone to the ideology of shamans occultists and charlatans of modern science and psychology And yet the studies published here for the first time argue that the fascination with magic and the occult are not symptoms of a dying age but subversively productive elements so that the subversiveness of irrationalism may be said to have become a progressive rather than a reactionary force
