1177 Bc The Year Civilization Collapsed Eric H Cline:

1177 B.C. Eric H. Cline, 2014-03-23 A bold reassessment of what caused the Late Bronze Age collapse In 1177 B C marauding groups known only as the Sea Peoples invaded Egypt The pharaoh's army and navy managed to defeat them but the victory so weakened Egypt that it soon slid into decline as did most of the surrounding civilizations After centuries of brilliance the civilized world of the Bronze Age came to an abrupt and cataclysmic end Kingdoms fell like dominoes over the course of just a few decades No more Minoans or Mycenaeans No more Trojans Hittites or Babylonians The thriving economy and cultures of the late second millennium B C which had stretched from Greece to Egypt and Mesopotamia suddenly ceased to exist along with writing systems technology and monumental architecture But the Sea Peoples alone could not have caused such widespread breakdown How did it happen In this major new account of the causes of this First Dark Ages Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures ranging from invasion and revolt to earthquakes drought and the cutting of international trade routes Bringing to life the vibrant multicultural world of these great civilizations he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries A compelling combination of narrative and the latest scholarship 1177 B C sheds new light on the complex ties that gave rise to and ultimately destroyed the flourishing civilizations of the Late Bronze Age and that set the stage for the emergence of classical Greece

After 1177 B.C. Eric H. Cline, 2024-04-16 In this gripping sequel to his bestselling 1177 B C Eric Cline tells the story of what happened after the Bronze Age collapsed why some civilizations endured why some gave way to new ones and why some disappeared forever A landmark book lucid deep and insightful You cannot understand human civilization and self organization without studying what happened on before and after 1177 B C Nassim Nicholas Taleb bestselling author of The Black Swan At the end of the acclaimed history 1177 B C many of the Late Bronze Age civilizations of the Aegean and Eastern Mediterranean lay in ruins undone by invasion revolt natural disasters famine and the demise of international trade An interconnected world that had boasted major empires and societies relative peace robust commerce and monumental architecture was lost and the so called First Dark Age had begun Now in After 1177 B C Eric Cline tells the compelling story of what happened next over four centuries across the Aegean and Eastern Mediterranean world It is a story of resilience transformation and success as well as failures in an age of chaos and reconfiguration After 1177 B C tells how the collapse of powerful Late Bronze Age civilizations created new circumstances to which people and societies had to adapt Those that failed to adjust disappeared from the world stage while others transformed themselves resulting in a new world order that included Phoenicians Philistines Israelites Neo Hittites Neo Assyrians and Neo Babylonians Taking the story up to the resurgence of Greece marked by the first Olympic Games in 776 B C the book also describes how world changing innovations such as the use of iron and the alphabet emerged amid the chaos

Filled with lessons for today's world about why some societies survive massive shocks while others do not After 1177 B.C. reveals why this period far from being the First Dark Age was a new age with new inventions and new opportunities

1177 B.C. Eric H. Cline, 2021-02-02 In a follow up to 1177 BC this book provides a portrait of the 400 years following the collapse of the Bronze Age a period referred to as the First Dark Age but which Cline will show was also an era of rebirth and resilience *1177 B.C. recorded and analysing the characters used to record them Mark Cook demonstrates that Linear A is Middle Egyptian written in a form of shorthand used by the later Greeks and Romans using hieroglyphs that were modified and simplified to be incised quickly and easily in wet clay Many of the tablets he reveals are Egyptian taxation records Based on the tablets he translates and the reinterpretation of Egyptian evidence Mark Cook concludes that New Kingdom Egypt ultimately came to rule Crete for a brief period rewriting what we know of the end of the Minoan Empire *Mahabharata War did happen but When?: Itihasa of Ancient Bharatavarsha* B NANDA GOPAL,2024-11-12 By end of July 2024 I gave a completion to my research on various topics which were intertwined to perfection Thus it made possible to write a book on one of my favourite topics of discussion reflected in the book s title which had intrigued me since my school days I have done my best to logically break down my arguments and hypothesis and use maps and other pictorial references wherever required to make it more appealing for readers Ancillary reason for writing this book We do have a recorded ancient history of more than 1000 years Before Christ and it is a proud one No it did not start from the Mauryas as we were taught in our childhood but still had all hallmarks of an advanced civilization namely 1 Martial Prowess 2 Literature including sacred texts written in indigenously developed Brahmi Script 3 Religion as a way of life with righteousness as its core 4 Currency based trade instead of barter 5 Iron Metallurgy most advanced of its time e g Wootz steel swords 6 Earliest use of iron weapons 7 Ancient Port and Harbour It is Itihasa of our Bharatavarsha Take pride in it *The Kingdom of Pylos* Sharon R.
