

Expanding Public Education

Step 1 Activate Prior Knowledge

Do a **Think-Quickwrite-Pair-Share** activity to have students discuss why public education is important to a nation. Ask them to think about what it would be like if only wealthy people could attend school. Explain to students that in the late 19th century, reformers began to stress the importance of public education to train workers for new jobs and to assimilate immigrants into American culture.

Step 2 Preview Main Ideas and Language

Connect Visually Have students look at the **graph**, “Expanding Education/Increasing Literacy,” on p. 489. Ask them to point to the year when school enrollment exceeded 15 million students. When did the literacy rate exceed 90%? Record student input on the board. Return to it once they have completed the section.

Build Vocabulary To help students understand public elementary education, read the paragraphs under “Schools for Children” on p. 489 and discuss the main ideas in class. Then have them use Part A of Activity Sheet 16.2 to complete a **Sunshine Outline** about the topic. Review student contributions as a class.

Step 3 Make Objectives Explicit

Have students read the objectives. Then have students write out a question based on each objective that they will answer after they have studied the section. Have students share their questions before reading. Be sure to check and clarify student understanding. If students’ first language is Spanish, have them read the lesson summary in the *Reading Study Guide* (English or Spanish).

- Analyze the growth of public education at the turn of the 20th century.
- Describe the growth of higher education.

Step 4 Support Student Reading

Cooperative Work Use the questions in Part B of Activity Sheet 16.2 to complete a **Jigsaw Reading** activity on the expansion of public education. Be sure to review student answers as a class.

On One’s Own Preview the following questions by asking students what they understand them to mean and providing clarification as needed. Have them use the questions as a guide for reading the section. Once students have finished reading, help them create complete sentences to reflect their answers.

1. Why did American children begin attending school at a younger age? (p. 489, par. 3)
2. What were three ways that education helped European immigrants to become “Americanized”? (p. 490, pars. 2–4)
3. What was higher education like for African Americans at the turn of the 20th century? (p. 490, par. 7)

Step 5 Prepare for Assessment

Alternative Assessment To help students understand educational reform at the turn of the 20th century, have them complete the Block Scheduling Activity “Reforming Public Education,” TE p. 490. Share with students Rubrics 2: Information Assessing Activities and 5: Writing Activities on pp. 31 and 35 of *Integrated Assessment*. Use these forms when evaluating their presentations.

Formal Assessment Review the test-taking strategy on pie graphs using TT59 of *Test Practice Transparencies* prior to testing. Then have students complete *Formal Assessment Section Quiz for 16.2* on p. 274.
