As a whole this book argues for the importance of educating deliberate professionals because in the current higher education climate there is a need to reconcile critique thinking participation doing and moral responsibility relating to others in professional practice and professional education Enhancing Professional Practice Charlotte Danielson,2007 Describes a framework for teaching based on the PRAXIS III criteria which identifies those aspects of a teacher s responsibilities that promote improved student learning exploring twenty two components grouped into the four domains of planning and preparation classroom environment instruction and professional responsibilities **Developing Professional Behaviors** Jack Kasar,E.
