William Dwight Whitney

1000 Symbols What Shapes Mean In Art And Mythology:

1000 Symbols Rupert Shepherd, 2002-07-30 Symbols are an international language but that language is far from universal Different symbols mean radically different things in different contexts a cross a crane or a swastika each have a distinct meaning for a Buddhist an art historian or a student of the occult 1000 Symbols offers a comprehensive directory of symbols in clear detailed artworks each accompanied by a definition of the symbol s history and its cross cultural meanings Beginning with an alphabetical cross referenced index the book is then organized into groupings of related symbols Geometrical Shapes circle square triangle pentagram crescent and spiral are just a few of the entries The Universe and the Elements includes all the symbols for the world around us earth air fire and water as well as times of day or month and the planets Characters and People details the symbolism attached to specific characters or to people and their general attributes Living Creatures denotes the symbolism of animals birds fish and insects Flowers Plants and Trees highlights the symbolism of growing things from the oak to the lotus Mythical Beasts contains beasts from the myths and legends of all cultures including hybrids such as the centaur Objects and Artifacts includes made or manufactured objects of symbolism from knot to labyrinth Numbers and Colors outlines their symbolic attributes in different cultures and contexts Whether you are baffled by the relevance of the winged staff held by Mercury in a classical painting or wonder about the number of branches on the Hebrew menorah this comprehensive directory will give you the information you are looking for and place the explanation in its historical and cultural context

1000 Symbols Rowena Shepherd, Rupert Shepherd, 2018-04 Symbols are often seen as constituting an international language and to some extent they do but that language is far from universal context means everything in this complicated but engrossing form of communication Take for example a cross a crane or a swastika each one has a different and distinct significance and meaning for a Buddhist an art historian or a student of the occult 1000 Symbols resolves the problem by offering groupings of related symbols every one with a neat definition of its history and its cross cultural meanings

Symbols in Arts, Religion and Culture Farrin Chwalkowski, 2016-12-14 We are a product of nature Every single cell of our body is made of and depends on nature Our inner soul is heavily influenced by nature We feel sad if the sun is not shining for a few days and feel pleasure when drawn to the wonder of flowers and uplifted by the song of birds We came from nature we are part of nature In short we are nature Nature has been an intimate part of the human experience from the earliest times Different religions and cultures from all corners of the world have honoured and worshipped nature in art ritual and literature in their own unique ways This book shows how we learn about our own human nature our own sense of identity and how we fit into the larger scheme of life and spirit when we come to better understand how our human ancestors through art symbol and myth expressed their relationship with the natural world
