The Humanist Imperative in South Africa John W. De Gruchy, 2011-08-01 This book is an outcome of the conversation that occurred during the five days of intense discussion at two symposia initiated by the New Humanism Project The struggle for a more humane society is both local and universal and increasingly these are connected in our time So while the conversation focused specifically on South Africa the discussion was neither parochial nor insular in its scope and character Hopefully then people beyond South Africa will find the contents of this book of value for them in terms of their own contexts

The Long Road to Sustainability Alexander Gillespie, 2018-01-25 For the last few thousand years humanity has struggled to achieve sustainable development Gillespie sees the problem as multi faceted a three legged stool of economic social and environmental conundrums have stalled the quest for the long term viability of both our species and the ecosystems in which we reside Gillespie moves from the low life expectancy excessive deforestation and wetland drainage of the medieval period through the species loss coal burning free trade and poor waste management of the seventeenth and eighteenth centuries and to the more recent concerns of climate change unsustainable fisheries and chemical pollutants By delivering a comprehensive examination of human survival over the past millennium Gillespie illustrates that the challenges we face are not new that we now have the means to counter them is

Great Divergence and Great Convergence Leonid Grinin, Andrey Korotayev, 2015-05-09 This new monograph provides a stimulating new take on hotly contested topics in world modernization and the globalizing economy It begins by situating what is called the Great Divergence the social technological revolution that led European nations to outpace the early dominance of Asia in historical context over centuries This is contrasted with an equally powerful Great Convergence the recent economic and technological expansion taking place in Third World nations and characterized by narrowing inequity among nations They are seen here as two phases of an inevitable global process centuries in the making with the potential for both positive and negative results This sophisticated presentation examines Why the developing world is growing more rapidly than the developed world How this development began occurring under the Western world s radar How former colonies of major powers grew to drive the

world's economy Why so many Western economists have been slow to recognize the Great Convergence The increasing risk of geopolitical instability Why the world is likely to find itself without an absolute leader after the end of the American hegemony A work of rare scope Great Divergence and Great Convergence gives sociologists global economists demographers and global historians a deeper understanding of the broader movement of social and economic history combined with a long view of history as it is currently being made it also offers some thrilling forecasts for global development in the forthcoming decades

Relentless Visionary

Michael Berick, If asked to list important inventors few remember to include Alessandro Volta Yet his is a household name more spoken than that of Alexander Graham Bell the Wright Brothers or even Thomas Edison That's because the terms volt and voltage can be attributed to Volta the inventor of the Voltaic pile which is recognized as the first electric battery A product of the Age of Enlightenment a time when ideas about reason science literature and liberty took center stage Volta employed a very modern hands-on approach to his work Though he had no formal education he was the first person to identify the gas known as methane and created the first authoritative list of conducting metals Alessandro Volta saw things not just as they were but as what they could be He was a disrupter an innovator and a visionary Above all he was relentless Without Volta's hunger to create and his drive to invent and discover we might not have electric cars laptops cellphones and hearing aids today
