Figures of the World Christopher Laing Hill, 2020-07-15 Figures of the World The Naturalist Novel and Transnational

Form overturns Eurocentric genealogies and globalizing generalizations about world literature by examining the complex contradictory history of naturalist fiction Christopher Laing Hill follows naturalism's emergence in France and circulation around the world from North and South America to East Asia His analysis shows that transnational literary studies must operate on multiple scales combine distant reading with close analysis and investigate how literary forms develop on the move The book begins by tracing the history of naturalist fiction from the 1860s into the twentieth century and the reasons it spread around the world Hill explores the development of three naturalist figures the degenerate body the self liberated woman and the social milieu through close readings of fiction from France Japan and the United States Rather than genealogies of European influence or the domination of cultural peripheries by the center novels by mile Zola Tayama Katai Frank Norris and other writers reveal conspicuous departures from metropolitan models as writers revised naturalist methods to address new social conditions Hill offers a new approach to studying culture on a large scale for readers interested in literature the arts and the history of ideas

100 Entertainers Who Changed America Robert C.

Sickels, 2013-08-08 This fascinating and thought provoking read challenges readers to consider entertainers and entertainment in new ways and highlights figures from outside the worlds of film television and music as influential pop stars Comprising approximately 100 entries from more than 50 contributors from a variety of fields this book covers a wide historical swath of entertainment figures chosen primarily for their lasting influence on American popular culture not their popularity The result is a unique collection that spotlights a vastly different array of figures than would normally be included in a collection of this nature and appeals to readers ranging from high school students to professionals researching specific entertainers Each subject individual's influence on popular culture is analyzed from the context of his or her time to the

present in a lively and engaging way and through a variety of intellectual approaches Many entries examine commonly discussed figures influence on popular culture in ways not normally seen for example the widespread appeal of Woody Allen's essay collections to other comedians or the effect of cinematic adaptations of Tennessee Williams plays in breaking down Hollywood censorship

The Political Economy of Hollywood James McMahon, 2022-02-25 In Hollywood the goals of art and business are entangled Directors writers actors and idealistic producers aspire to make the best films possible These aspirations often interact with the dominant firms that control Hollywood film distribution This control of distribution is crucial as it enables the firms and other large businesses involved such as banks that offer financing to effectively stand between film production and the market This book analyses the power structure of the Hollywood film business and its general modes of behaviour More specifically the work analyses how the largest Hollywood firms attempt to control social creativity such that they can mitigate the financial risks inherent in the art of filmmaking Controlling the ways people make or watch films the book argues is a key element of Hollywood's capitalist power Capitalist power the ability to control modify and sometimes limit social creation through the rights of ownership is the foundation of capital accumulation For the Hollywood film business capitalist power is about the ability of business concerns to set the terms that will shape the future of cinema For the major film distributors of Hollywood these terms include the types of films that will be distributed the number of films that will be distributed and the cinematic alternatives that will be made available to the individual moviegoer Combining theoretical analysis with detailed empirical research on the financial performance of the major Hollywood film companies the book details how Hollywood's capitalist goals have clashed with the aesthetic potentials of cinema and ultimately stymied creativity in the pursuit of limiting risk This sharp critique of the Hollywood machine provides vital reading for students and scholars of political economy political theory film studies and cinema

Orloff,2006-10-07 A secure future has to be the goal and motivation of every attempt at progress and of all politics Engineers teachers and scientists can assume a part of their personal responsibility in such attempts We should all search for organizational and technical possibilities individually and with our fellow professionals that can help avoid technogenic and therefore sociogenic catastrophes When we consider the extremely short time for inventions and the practical plication of essential ideas it is not enough to rely on the methods for finding new ideas that our wonderful yet so imperfect civilization has created Perhaps this civilization is

sometimes so deficient because the methods that have shaped it are imperfect Who controls the development of humanity Can we really make a reliable prognosis about our best way into the future How can sociogenic geogenic and cosmic catastrophes be avoided How can we insure the progress and security of coming generations TRIZ teaches us how to make inventions TRIZ teaches us how to construct the future TRIZ changes your thinking i e all of civilization too Rational decisions about the problems above cannot be made today without the use of TRIZ **Current Biography Yearbook** ,2007

Norako,2024-08-15 Monstrous Fantasies asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre the last of the Latin crusader states in the Holy Land and what these texts reveal about the cultural anxieties of late medieval England Leila K Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance These two episodes inspired a sense of urgency over the fate of the Holy Land and of Latin Christendom itself resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims These romances which as Norako argues also influenced Geoffrey Chaucer s Canterbury Tales conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum Monstrous Fantasies also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so called wars on terror in the twenty first century in such films as Kingdom of Heaven and American Sniper
