

Lab Activity 9: Locating an Earthquake

After preparing for this activity, introduce students to the concept of triangulation. The point is to show that you can locate a point if you know the distance from several known locations (triangulation).

Read the following passage about the method of triangulation and answer the following questions. (Source: Adapted from <https://www.britannica.com/science/earthquake>.)

Part A: Complete the first two steps of the triangulation method. Use the following information:

1. What is the epicenter of the earthquake?
2. What is the location of the earthquake's focus?
3. Estimate the earthquake's magnitude.

Part B: Complete the first two steps of the triangulation method. Use the following information:
