

TYPES OF DERIVATIVES INSTRUMENTS

FORWARD CONTRACT

- Agreement to buy underlying asset at a specific rate & specific date in future.
- More flexibility than other derivatives.
- Contracts are customizable.
- Over the counter trading
- Higher counterparty credit risk.

FUTURES

- Similar to forward contracts.
- Trade on established exchanges
- Parties to contract can't tailor the contractual points.
- Fix format, size and expiration.
- Follow daily settlement procedure.

OPTIONS

- Gives holder a right & not obligation to buy or sell the underlying asset at a specific rate and date.
- Right is only available to the buyer.
- For seller, options are an obligation.
- 2 types: call option & put option.

SWAPS

- Most intricate derivative tools.
- Most involve exchange of fixed cash flow for a floating cash flow.
- Similar to other type of derivative, swaps can be of commodity, currency, interest rate or more.

Derivatives Markets David Goldenberg,2016-03-02 Derivatives Markets is a thorough and well presented textbook that offers readers an introduction to derivatives instruments with a gentle introduction to mathematical finance and provides a working knowledge of derivatives to a wide area of market participants This new and accessible book provides a lucid down to earth theoretically rigorous but applied introduction to derivatives Many insights have been discovered since the seminal work in the 1970s and the text provides a bridge to and incorporates them It develops the skill sets needed to both understand and to intelligently use derivatives These skill sets are developed in part by using concept checks that test the reader s understanding of the material as it is presented The text discusses some fairly sophisticated topics not usually

discussed in introductory derivatives texts For example real world electronic market trading platforms such as CME's Globex On the theory side a much needed and detailed discussion of what risk neutral valuation really means in the context of the dynamics of the hedge portfolio The text is a balanced logical presentation of the major derivatives classes including forward and futures contracts in Part I swaps in Part II and options in Part III The material is unified by providing a modern conceptual framework and exploiting the no arbitrage relationships between the different derivatives classes Some of the elements explained in detail in the text are Hedging Basis Risk Spreading and Spread Basis Risk Financial Futures Contracts their Underlying Instruments Hedging and Speculating OTC Markets and Swaps Option Strategies Hedging and Speculating Risk Neutral Valuation and the Binomial Option Pricing Model Equivalent Martingale Measures The Modern Approach to Option Pricing Option Pricing in Continuous Time from Bachelier to Black Scholes and Beyond Professor Goldenberg's clear and concise explanations and end of chapter problems guide the reader through the derivatives markets developing the reader's skill sets needed in order to incorporate and manage derivatives in a corporate or risk management setting This textbook is for students both undergraduate and postgraduate as well as for those with an interest in how and why these markets work and thrive

The UK Financial System M. Buckle, John L. Thompson, 1998 Transforming conflict through social and economic development examines lessons learned from the Northern Ireland and Border Counties conflict transformation process through social and economic development and their consequent impacts and implications for practice and policymaking with a range of functional recommendations produced for other regions emerging from and seeking to transform violent conflict It provides for the first time a comprehensive assessment of the region's transformation activity largely amongst grassroots actors enabled by a number of specific funding programmes namely the International Fund for Ireland Peace I II and III and INTERREG I II and IIIA These programmes have been responsible for a huge increase in grassroots practice which to date has attracted virtually no academic analysis this book seeks to fill this gap In focusing on the politics of the socioeconomic activities that underpinned the elite negotiations of the peace process key theoretical transformation concepts are firstly explored followed by an examination of the social and economic context of Northern Ireland and the border counties The three programmes and their impacts are then assessed before considering what policy lessons can be learned and what recommendations can be made for practice This is underpinned by a range of semi structured interviews and the author's own experience as a project promoter through these programmes in the border counties for more than a decade The book will be essential reading for students practitioners and policymakers in the fields of peace and conflict studies conflict transformation peacebuilding post agreement reconstruction and the political economy of conflict and those interested in contemporary developments in the Northern Ireland peace process
