

1958 *Chevrolet* TRUCK SHOP MANUAL

FOREWORD

This manual is designed to provide the service man with complete information on the maintenance and repair of various units of the 1958 model Chevrolet trucks.

An effort has been made to produce a manual that will not only serve as a ready reference book for the experienced service man but also cover step-by-step procedure for the guidance of the less experienced man.

The Section Index on the title page enables the user to quickly locate any desired section. At the beginning of each section is a Table of Contents, which gives the page number on which each major subject begins. An Index is placed at the beginning of each major subject within the section, while a complete Alphabetical Index is provided at the end of the manual. This arrangement, we believe, will make it easy for the service man to locate the desired information.

Summaries of Specifications and Special Tools are found at the end of each major section.

This manual should be kept in a handy place for ready reference. If properly used, it will enable the mechanic to better serve the owners of Chevrolet trucks and thereby build or maintain a reputation for reliable service.

All information, illustrations and specifications contained in this literature are based on the latest product information available at the time of publication approval. The right is reserved to make changes at any time without notice.
