Ward, Randy Elliot Bennett, 2012-10-12 This book brings together psychometric cognitive science policy and content domain perspectives on new approaches to educational assessment in particular constructed response performance testing and portfolio assessment These new assessment approaches a full range of alternatives to traditional multiple choice tests are useful in all types of large scale testing programs including educational admissions school accountability and placement This book s multi disciplinary perspective identifies the potential advantages and pitfalls of these new assessment forms as well as the critical research questions that must be addressed if these assessment methods are to benefit education *The ETS Test Collection Catalog* Educational Testing Service. Test Collection, 1993 The major source of information on the availability of standardized tests Wilson Library Bulletin Covers commercially available standardized tests and hard to locate research instruments **Language Curriculum Design** John Macalister, I.S.P. Nation, 2009-09-10 Crystal clear and comprehensive yet concise this text describes the steps involved in the curriculum design process elaborates and justifies these steps and provides opportunities for practicing and applying them

The description of the steps is done at a general level so that they can be applied in a wide range of particular circumstances. The process comes to life through plentiful examples of actual applications of the steps. Each chapter includes examples from the authors' experience and from published research tasks that encourage readers to relate the steps to their own experience, case studies and suggestions for further reading that put readers in touch with others' experience. Curriculum or course design is largely a how-to activity that involves the integration of knowledge from many of the areas in the field of Applied Linguistics such as language acquisition, research, teaching methodology, assessment, language description and materials production. Combining sound research theory with state-of-the-art practice, *Language Curriculum Design* is widely applicable for ESL/EFL language education courses around the world. *Current Catalog*, National Library of Medicine (U.S.), 1993. First multi-year cumulation covers six years, 1965-70. *Second Language Acquisition*, Glenwood, Henry Irons, 1988. Broadcasting Politics in Japan, Ellis S. Krauss, 2018-09-05. The aftermath of Japan's 1945 military defeat left its public institutions in a state of deep crisis; virtually every major source of state legitimacy was seriously damaged or wholly remade by the postwar occupation. Between 1960 and 1990, however, these institutions renewed their strength, taking on legitimacy that erased virtually all traces of their postwar instability. How did this transformation come about? This is the question Ellis S. Krauss ponders in *Broadcasting Politics in Japan*; his answer focuses on the role played by the Japanese mass media and in particular by Japan's national broadcaster NHK. Since the 1960s, television has been a fixture of the Japanese household, and NHK's TV news has until very recently been the dominant and most trusted source of political information for the Japanese citizen. NHK's news style is distinctive among the broadcasting systems of industrialized countries; it emphasizes facts over interpretation and gives unusual priority to coverage of the national bureaucracy. Krauss argues that this approach is not simply a reflection of Japanese culture but a result of the organization and processes of NHK and their relationship with the state. These factors had profound consequences for the state's postwar re-legitimization, while the commercial networks' recent challenge to NHK has helped engender the wave of cynicism currently faced by the state. Krauss guides the reader through the complex interactions among politics, media organizations and Japanese journalism to demonstrate how NHK television news became a shaper of Japan's political world rather than simply a lens through which to view it. **Revue Canadienne Des Langues Vivantes**, 1985. *The Cumulative Book Index*, 1985.
