Sampling, Approximation, and Signal Analysis Stephen D. Casey, M. Maurice Dodson, Paulo J. S. G. Ferreira, Ahmed Zayed, 2024-01-04. During his long and distinguished career, J. Rowland Higgins (1935–2020) made a substantial impact on many mathematical fields through his work on sampling theory, his deep knowledge of its history, and his service to the community. This volume is a tribute to his work and legacy, featuring chapters written by distinguished mathematicians that explore cutting-edge research in sampling, approximation, signal analysis, and other related areas. An introductory chapter provides a biography of Higgins that explores his rich and unique life, along with a bibliography of his papers. A brief history of the SampTA meetings, of which he was a Founding Member, is also included. The remaining articles are grouped into four sections: classical sampling, theoretical extensions, frame theory, and applications of sampling theory, and explore Higgins' contributions to these areas, as well as some of the latest developments.

Justice, Responsibility and Reconciliation in the Wake of Conflict Alice MacLachlan, Allen Speight, 2012-12-04. What are the moral obligations of participants and bystanders during and in the wake of a conflict? How have theoretical understandings of justice, peace, and responsibility changed in the face of contemporary realities of war? Drawing on the work of leading scholars in the fields of philosophy, political theory, international law, religious studies, and peace studies, the collection significantly advances current literature on war, justice, and post-conflict reconciliation. Contributors address some of the most pressing issues of international and civil conflict, including the tension between attributing individual and collective responsibility for the wrongs of war, the trade-offs made between the search for truth and demands for justice, and the conceptual intricacies of coming to understand just what is meant by peace and conflict. Individual essays also address concrete topics, including the international criminal court, reparations, truces, political apologies, truth commissions, and criminal trials, with an eye to contemporary examples from conflicts in the Middle East, Africa, and
