Between Reform and Revolution Linda J. Seligmann, 1995 This is the story of one of the most ambitious agrarian reforms in Latin American history The book argues that the economic political and cultural dynamics set in motion by the reforms are central to understanding the brutal civil war that ensued in Peru

between the state and the Maoist Leninist Shining Path guerilla movement **Late modernist poetics** Anthony Mellors, 2024-06-04 This book explores the uncanny afterlife of modernist ideals in the second half of the twentieth century Rejecting the familiar notion that modernism dissolved during the 1930s it argues that the fusion of rationalism and mysticism which characterises modernist poetics was sustained long after its politics had been discredited by the events of World War Two The book's central concern is why the aesthetic mysticism that Walter Benjamin called the faith of those who made common cause with Fascism continued to be a guiding principle for literary elites and countercultural movements alike New light is shed on the relationship between occultism and the Pound tradition especially in terms of Pound's influence on post 1945 Anglo American poetry and a critical theory of late modernism is offered which shows how belated notions of cultural redemption have survived in contemporary poetry This wide ranging contextual study focuses on the poetry of Ezra Pound Charles Olson Paul Celan and J H Prynne and explores the development of modernist culture through its theories of phenomenology psychoanalysis science ethnography and ancient history Colombia's Forgotten Frontier Lesley Wylie, 2013 The first literary geography of the Putumayo exploring its history and enduring significance through literature of and on this Colombian region by Latin American US and European writers **Strange Attractor** Graham St John, 2025-10-07 An intellectual biography of one of the most celebrated and yet least understood figures of the late twentieth century Terence McKenna A stand up philosopher who made a unique contribution to science humanism and the hidden arts Terence McKenna 1946 2000 was the twentieth century's psychedelic Renaissance man Perfecting his rugged philosophy on the role of psychedelics in evolution consciousness and time McKenna was a riotous charmer who stalked the shadows but also sought the iridescence More than twenty years since his untimely passing McKenna has an enduring magnetism across the virtual pop stream in pervasive digitization and within social media networks In *Strange Attractor* the first biography of this enigmatic figure Graham St John detects the signal behind the noise This book is an engaging chronicle of the life works and legacy of this brazen adventurer of the inner and outer dimensions whose weird intelligence has affected multitudes and whose spirit continues to haunt the present It draws on original documents and letters features fifty two rare photographs and artworks and shares previously untold stories from over eighty people Neither glorifying nor disparaging its subject *Strange Attractor* will appeal to those interested in the evolution of a psychedelic intellectual and to those for whom McKenna's wisdom endures *Cinderella Story* James Haywood Rolling Jr., 2010-03-16 *Cinderella Story* is an experimental autoethnography that explores critical racial issues in America through the media of language and images Rolling asks How do words and images involving stories and paradigms past and future perceptions of beauty and ugliness become flesh How are they done and undone In this supple and complex narrative the author peers deeply into his own life and attitudes and into the racial images and ideas made explicit by American history as a whole to sort out fact from fiction in new and ingenious ways The Great Encounter Jayme A. Sokolow, 2003 By putting the story of the native Americans and their

Shamanism, Discourse, Modernity Thomas Karl Alberts, 2016-03-03 *Shamanism Discourse Modernity* considers indigenous peoples struggles for human rights anxieties about anthropocentric mastery of nature neoliberal statecraft and entrepreneurialism of the self The book focuses on four domains shamanism indigenism environmentalism and neoliberalism in terms of interrelated historical processes and overlapping discourses In doing so it engages with shamanism's manifold meanings in a world increasingly sensitive to indigenous peoples practices of territoriality increasingly concerned about humans integral relationship with natural environments and increasingly encouraged and coerced to adjust self conduct to comport with and augment government conduct

Kendrick Lamar and the Making of Black Meaning Christopher M. Driscoll, Monica R Miller, Anthony B. Pinn, 2019-09-25 Kendrick Lamar has established himself at the forefront of contemporary hip hop culture Artistically adventurous and socially conscious he has been unapologetic in using his art form rap music to address issues affecting black lives while also exploring subjects fundamental to the human experience such as religious belief This book is the first to provide an interdisciplinary academic analysis of the impact of Lamar's corpus In doing so it highlights how Lamar's music reflects current tensions that are keenly felt when dealing with the subjects of race religion and politics Starting with *Section 80* and ending with *DAMN* this book deals with each of Lamar's four major projects in turn A panel of academics journalists and hip hop practitioners show how religion in particular black spiritualities take a front and center role in his work They also observe that his astute and biting thoughts on race and culture may come from an African American perspective but many find something familiar in Lamar's lyrical testimony across great chasms of social and geographical difference This sophisticated exploration of one of popular

culture's emerging icons reveals a complex and multi-faceted engagement with religion, faith, race, art, and culture. As such, it will be vital reading for anyone working in religious, African American, and hip hop studies, as well as scholars of music, media, and popular culture.

A Poetics of Resistance Jeff Conant, 2010-08-01. Part literary criticism, part media analysis, and part marketing handbook, *A Poetics of Resistance* provides a refreshingly new take on the Zapatistas. While much has been written on the history of the Zapatista insurgency and on the communiqués of Subcomandante Marcos, very little has been said about Zapatismo: the ideologies, organizing methodologies, and communications strategies of the movement. The appeal of the Zapatistas and their survival has as much to do with their goals as with the compelling and wildly effective language and aesthetics they've used to convey their vision. Weaving together varied elements of poetics and symbolism, Zapatismo has emerged as something entirely new: a resolutely radical public relations campaign for human liberation. The first postmodern revolution presented itself to the world through a complex and evolving web of propaganda using a wide range of media: the colorful communiqués of Marcos, the ski masks, uniforms, toy dolls, and other accoutrements of the insurgent or sympathizer, and murals, songs, and other popular cultural forms. Employing persuasive publicity, myths, and symbols, the Zapatistas both communicated their message and developed a clear aesthetic that could contain many messages at once and self-replicate on a global scale. Jeff Conant offers an engaging and innovative tool for organizers and educators to understand how the Zapatistas' strategy works and to continue developing and refining their effective messages of participatory bottom-up revolution. Jeff Conant is a writer and activist in the San Francisco Bay Area and the author of *A Community Guide to Environmental Health*.
