Introduction to Management John R. Schermerhorn, 2011 Completely updated and revised this eleventh edition arms managers with the business tools they ll need to succeed The text presents managerial concepts and theory related to the fundamentals of planning leading organising and controlling with a strong emphasis on application It offers new information on the changing nature of communication through technology Focus is also placed on ethics to reflect the importance of this topic especially with the current economic situation This includes all new ethics boxes throughout the chapters An updated discussion on the numerous legal law changes over the last few years is included as well Managers will be able to think critically and make sound decisions using this text because the concepts are backed by many applications exercises and cases

Integrating Business, Management and Organisation Scholarship Richard Breese, 2025-12-01 Businesses deliver value to their stakeholders including customers employees suppliers communities and shareholders Therefore value creation is pivotal to management theory but there is a lack of agreement amongst scholars about value at the conceptual level This book uses invariant properties of human activities to develop a novel theory of value to help resolve controversies and integrate scholarship from different specialisms To establish boundaries for the task of integration business management and organisation scholarship is identified as being an applied supra disciplinary mega field Its fragmented nature means that different academic fields such as strategic management and marketing approach the concept of value in distinct ways based on their respective roots in economics and other social sciences Tracing the evolution of ideas on value over time a new theoretical framework is developed the integrating theory of value co creation as an alternative to existing theories on value creation for individuals and organisations The cornerstone of the integrating theory of value co creation is that exchange is the fundamental basis for value co creation which enables it to cover both provider and customer perspectives Given its interdisciplinary approach this book will appeal to any social scientist interested in the management of organisations

Women in Aviation Nor Aida Abdul Rahman, Nurhayati Mohd Nur, 2023-09-12 This book is a comprehensive review and empirical study on women capacity building leadership characteristics talent management and women challenges in crises era from an aviation perspective This book offers a blend of comprehensive and extensive high quality research outputs from highly reputed authors and editors This book aims to address the following objectives explores the women empowerment facets in aviation and its challenges in crisis era which will be covered throughout the book Such facets of women empowerment include women awareness of the right of equality self confidence changes in society and at the workplace and capacity building examines the women leadership values in aviation which will be covered throughout the
