Security With Care Restorative Justice And Healthy Societies:

Security, with Care Elizabeth M. Elliott, 2011 The author argues that restorative justice in Canada and the U S has been co opted and relegated to the sidelines of the dominant criminal justice system that restorative justice transcends that system and that if it isn't who we are then it will never be sustainable it must be a new paradigm for responding to harm and conflict Facilitating this shift requires a rethinking of the assumptions around punishment and justice placing emphasis instead on values and relationships if we can achieve this change we have the potential to build a healthier more ethical and more democratic society

Security, with Care Elizabeth May Elliott, 2011 I learned that the problems were much deeper than a flawed criminal justice system and that our work needed to begin in our relationships with each other and the natural world and most importantly with ourselves from the preface Restorative justice as it exists in Canada and the U S has been co opted and relegated to the sidelines of the dominant criminal justice system In *Security With Care* Elizabeth M Elliott argues that restorative justice cannot be actualized solely within the criminal justice system If it isn't who we are says Elliott then the policies will never be sustainable Restorative justice must be more than a program within the current system it must be a new paradigm for responding to harm and conflict Facilitating this shift requires a rethinking of the assumptions around punishment and justice placing emphasis instead on values and relationships But if we can achieve this change we have the potential to build a healthier more ethical and more democratic society

Restorative Justice Theo Gavrielides, 2017-09-19 The legitimacy and performance of the traditional criminal justice system is the subject of intense scrutiny as the world economic crisis continues to put pressure on governments to cut the costs of the criminal justice system This volume brings together the leading work on restorative justice to achieve two objectives to construct a comprehensive and up to date conceptual framework for restorative justice suitable even for newcomers and to challenge the barriers of restorative justice in the hope of taking its theory and practice a step further The selected articles start by answering some fundamental questions about restorative justice regarding its historical and philosophical origins and challenge the concept by bringing into the debate the human rights and equality discourses Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates victim satisfaction and reintegration The volume concludes with a critique of

restorative justice as well as with analytical thinking that aims to push its barriers. It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate over restorative justice. *Trauma-Informed Juvenile Justice in the United States*

Minding the Gap Between Restorative Justice, Therapeutic Jurisprudence, and Global Indigenous Wisdom Saade, Marta Vides, Halder, Debarati, 2022-10-28 Foundational principles of the contemporary practices of both restorative justice and the concept of therapeutic jurisprudence often import organic and indigenous practices of conflict resolution to resolve insufficiencies and even to explain fundamental ideas Too often the indiscriminate use of such practices does not mind the

Reimer, 2018-12-01 Restorative justice RJ is an idea whose time may have finally arrived Although the concept has ancient roots and the term has existed in Western societies since the 1970s only recently

has it gained general public recognition In schools RJ s popularity is rising world wide In fact education is the fastest growing area for the practice of RJ Despite an increasing number of schools embracing the approach it is not clear what educational RJ practitioners are trying to achieve Adult Intentions Student Perceptions How Restorative Justice is Used in Schools to Control and to Engage focuses on the use of RJ in one school in Scotland and one in Canada While important to understand the intentions of educators in using RJ in schools those aims must be examined alongside the actual impact that such practices have on students RJ can be understood and experienced in dramatically different ways by those implementing it For some RJ is about creating an environment of and for student engagement that challenges traditional systems of discipline and facilitates learning For others RJ is simply another tool for solidifying compliance and meting out punishment albeit in a kinder gentler way Adult Intentions Student Perceptions provides the opportunity to delve deeply into the stories of two schools and the adults and young people who inhabit them and consider the broad impact that differing educator understandings of RJ have on students Adult Intentions Student Perceptions is a timely book for RJ advocates and critics alike It challenges a common assumption of some RJ advocates that implementing RJ necessarily creates a classroom environment of social engagement where students are empowered to engage with one another and think critically and school relationships and hierarchies are transformed The student experience relayed in this book shows that RJ can as readily be mobilized to create classroom environments of social control where students are taught obedience and compliance and authority and hierarchy are reinforced Reimer argues that RJ by itself does not guarantee certain qualities of relationship but RJ does allow us to examine relational qualities and ask questions of how school relationships are used to engage and or control students
