Sensation and Perception + Mindtap Psychology, 1-term Access, 2016 *Sensation and Perception + Coglab 5, 1 Term 6 Months Printed Access Card , The Aesthetics of Food* Kevin W. Sweeney, 2017-12-29 The Aesthetics of Food sets out the continuing philosophical debate about the aesthetic nature of food The debate begins with Plato s claim that only objects of sight and hearing could be beautiful consequently food as something we smell and taste could not be beautiful Plato s sceptical position has been both supported and opposed in one form or another throughout the ages This book demonstrates how the current debate has evolved and critically assesses that debate showing how it has been influenced by the changing nature of critical theory and changes in art historical paradigms Expressionism Modernism and Post modernism as well as by recent advances in neuroscience It also traces changes in our understanding of the sensory experience of food and drink from viewing taste as a simple single sense to current views on its complex multi sensory nature Particular attention is paid to recent philosophical discussion about wine whether an interest in a wine reflects only a subjective or personal preference or whether one can make objective judgments about the quality and merit of a wine Finally the book explores how the debate has been informed by changes in the cooking presenting and consuming of food for example by the appearance of the restaurant in the early nineteenth century as well as the rise of celebrity chefs Feeling Film Beth Carroll, 2016-11-25 This book questions the de facto dominance of narrative when watching films Using the film musical as a case study this book explores whether an alternative spatial understanding of film can offer alternative readings to narrative

For instance how do film aesthetics influence our interaction with the film Can camera movement and music make us feel cinema Can the film world bleed into our own Utilising film musicals ranging from those by Fred Astaire and Ginger Rogers to von Trier s Dancer in the Dark 2000 Feeling Film A Spatial Approach investigates how we might go about understanding the audience s spatial relationship with film aesthetics what it might look like and the tools needed to conduct analysis
