Experiencing Design Jeanne Liedtka, Karen Hold, Jessica Eldridge, 2021-07-20 In daylong hackathons design thinking seems deceptively easy On the surface it involves a set of seemingly simple activities such as gathering data identifying insights generating ideas prototyping and experimentation But practiced at a superficial level even great design tools don t go deep enough to create the shifts in mindset and skillset that are required to achieve transformational impact Going deep with design requires more than changing the activities of innovators it involves creating the conditions that shape who they become Individuals become design thinkers by experiencing design Drawing on decades of researching design thinking and teaching it to people not trained in design Jeanne Liedtka Karen Hold and Jessica Eldridge offer a guide for how to create these deep experiences at each stage of the design thinking journey whether for an individual a team or an organization For each experience phase they specify the mindset shifts and competencies that need to be achieved describe how different personality types experience different kinds of journeys and show how to fully leverage the diversity of teams Experiencing Design explores both the science and practicalities of design and includes two assessment instruments for individual and organizational development Ultimately innovators need to be someone new to create something new This book shows you how to use design thinking to make this happen

Design Thinking for the Greater Good Jeanne Liedtka, Randy Salzman, Daisy Azer, 2017-09-05 Facing especially wicked problems social sector organizations are searching for powerful new methods to understand and address them Design Thinking for the Greater Good goes in depth on both the how of using new tools and the why As a way to reframe problems ideate solutions and iterate toward better answers design thinking is already well established in the commercial world Through ten stories of struggles and successes in fields such as health care education agriculture transportation social services and security the authors show how collaborative creativity can shake up even the most entrenched bureaucracies and provide a practical roadmap for readers to implement these tools The design thinkers Jeanne Liedtka Randy Salzman and Daisy Azer explore how major agencies like the Department of Health and Human Services and

the Transportation and Security Administration in the United States as well as organizations in Canada Australia and the United Kingdom have instituted principles of design thinking In each case these groups have used the tools of design thinking to reduce risk manage change use resources more effectively bridge the communication gap between parties and manage the competing demands of diverse stakeholders Along the way they have improved the quality of their products and enhanced the experiences of those they serve These strategies are accessible to analytical and creative types alike and their benefits extend throughout an organization This book will help today s leaders and thinkers implement these practices in their own pursuit of creative solutions that are both innovative and achievable
