Business Process Management: Blockchain, Robotic Process Automation, Central and Eastern European, Educators and Industry Forum Claudio Di Ciccio, Walid Fdhila, Simone Agostinelli, Daniel Amyot, Henrik Leopold, Michal Krčál, Monika Malinova Mandelburger, Gregor Polančič, Katarina Tomićić-Pupek, Katarzyna Gdowska, Thomas Grisold, Piotr Sliż, Iris Beerepoot, Renata Gabryelczyk, Ralf Plattfaut, 2024-08-31 This book constitutes the proceedings of the BPM 2024 Blockchain RPA CEE

Educators Industry Forum held at the 22nd International Conference on Business Process Management BPM 2024 which took place in Krakow Poland in September 2024 The Blockchain Forum provided a platform for exploring and discussing innovative ideas on the intersection of BPM and blockchain technology The CEE Forum deals with BPM research in Central and Eastern European countries emphasizing the specific challenges due to cultural political regional or organizational differences The RPA Forum focused on the use of the Robotic Process Automation RPA in the field of Business Process Management The Educators Forum brought together educators within the BPM community for sharing resources to improve the practice of teaching BPM related topics The Industry Forum served as a platform connecting academia and industry professionals to exchange real world experiences and insights on leveraging Business Process Management The total of 35 papers included in this book was carefully reviewed and selected from a total of 69 papers submitted to these forums

Handbook on Business Process Management 2 Jan vom Brocke, Michael Rosemann, 2014-08-28 Business Process Management BPM has become one of the most widely used approaches for the design of modern organizational and information systems The conscious treatment of business processes as significant corporate assets has facilitated substantial improvements in organizational performance but is also used to ensure the conformance of corporate activities This Handbook presents in two volumes the contemporary body of knowledge as articulated by the world's leading BPM thought leaders This second volume focuses on the managerial and organizational challenges of BPM such as strategic and cultural alignment governance and the education of BPM stakeholders As such this book provides concepts and methodologies for the integration of BPM Each chapter has been contributed by leading international experts Selected case studies complement their views and lead to a summary of BPM expertise that is unique in its coverage of the most critical success factors of BPM The second edition of this handbook has been significantly revised and extended Each chapter has been updated to reflect the most current developments This includes in particular new technologies such as in memory data and process management social media and networks A further focus of this revised and extended edition is on the actual deployment of the proposed theoretical concepts This volume includes a number of entire new chapters from some of the world's leading experts in the domain of BPM Business Process Management: Responsible BPM Forum, Process Technology Forum, Educators Forum Mahendrawathi ER, Avigdor Gal, Thomas Grisold, Flavia Santoro, Mathias Weske, Remco M. Dijkman, Dimka Karastoyanova, Banu Aysolmaz, Wasana Bandara, Kate Revoredo, 2025-08-29 This book constitutes the proceedings of the BPM 2025 Responsible BPM Forum Process Technology Forum and Educators Forum held at the 23rd International Conference on Business Process Management BPM 2025 which took place in Seville Spain during September 2025 The Responsible Business Process Management RBPM Forum provides a platform for exploring how to integrate responsibility into BPM practices addressing challenges from three perspectives technological managerial and conceptual The Process Technology Forum covers technical and engineering aspects related to the study design development and maintenance of software

systems that support the modeling simulation analysis enactment and monitoring of business processes The Educators Forum deals with possibilities to improve BPM teaching in a dynamic and practice oriented way The total of 32 papers included in this book was carefully reviewed and selected from a total of 65 papers submitted to these forums *Process-Oriented Dynamic Capabilities* Ralf Plattfaut, 2013-12-02 This book introduces a process oriented dynamic capability framework to study both service innovation and Business Process Management BPM Results from applications in several case studies and surveys are reported They reflect e.g. capability development and maturity models Based on these findings a method to support service innovation is introduced This method can help organizations in developing new service business models in a more effective and efficient way In today's networked service society service innovation becomes increasingly important Reasons for this development can be found in the transformation of economies and in the growing importance of product service systems The concept of service innovation is related to Business Process Management BPM and shares several important traits They both are process oriented dynamic capabilities to adapt service processes to changing environments

Organizational Applications of Business Intelligence Management: Emerging Trends Herschel, Richard T., 2012-03-31 This book offers a deep look into the latest research tools implementations frameworks architectures and case studies within the field of Business Intelligence Management Provided by publisher *Multicultural Awareness and Technology in Higher Education: Global Perspectives* Issa, Tomayess, Isaias, Pedro, Kommers, Piet, 2014-03-31 Diversity among university students plays a significant role in raising awareness of numerous issues surrounding cultural heritage language differences cross cultural collaboration and international education The integration of technological tools can assist students in cooperating nationally and internationally both in their current educational and future professional settings *Multicultural Awareness and Technology in Higher Education: Global Perspectives* encompasses the latest research on the impact and integration of technology into international education and culturally diverse learning environments Providing the latest teaching and learning methods technologies and approaches at the university level this publication is a useful reference for academics educational administrators in public and private institutions and information society researchers *Business Processes for Business Communities* Frank Schönthaler, Gottfried Vossen, Andreas Oberweis, Thomas Karle, 2012-03-14 After a brief introduction to the topic of business process modeling the book offers a quick start into model based business process engineering After that the foundations of the modeling languages used are conveyed Meaningful examples are in the foreground each of the underlying formalisms is treated only as far as needed Next the Horus Method is described in detail The book defines a sequence of activities which finally leads to the creation of a complete business process model The Horus Method incidentally is not bound to the use of the Horus software tools It can be used with other tools or if necessary be used even without tool support Important application fields of business process engineering are described where the spectrum ranges from business process reengineering to the development and implementation of information systems The book

concludes with an outlook on the future of business process engineering and highlights current research activities in the area

White Space Revisited Geary A. Rummler, Alan J. Ramias, Richard A. Rummler, 2009-12-15 When Improving Performance Managing the White Space on the Organization Chart was published in 1990 it was lauded as the book that launched the Process Improvement revolution This was the book that first detailed an approach that bridged the gaps between organization strategy work processes and individual performance Two decades later White Space Revisited goes beyond a mere revision of that groundbreaking book and refocuses on the ultimate purpose of organizations which is to create and sustain value This book picks up where Improving Performance left off and shares what we have learned about process in the past 15 years since it was published and how the reader primarily practitioners can capitalize on these notions in their own pursuit of process excellence White Space Revisited is a comprehensive resource that offers process and performance professionals a conceptual foundation a thorough and proven methodology a set of remarkable working tools for doing process work in a more significant way and a series of candid observations about the practice of Business Process Management BPM The book s time tested methods models tools and guidelines serve to align people process and technology White Space Revisited includes information on a wealth of vital topics and Describes the difference in impact of focusing on single processes vs large scale improvements Provides an integrated step by step blueprint for designing implementing and sustaining process management Offers a detailed methodology for strategic and tactical process definition and improvement Spells out how to leverage the power of IT to optimize organizational performance Shows how to integrate the energy and value of Six Sigma Process Improvement and Process Management into an effective Process Excellence Group **High Performance Through Business Process Management** Mathias Kirchmer, 2017-03-09 This management book presents value driven business process management as a successful discipline to turn strategy into people and technology based execution quickly and at minimal risk It shows how to achieve high performance successfully in a digital business environment Static business models do not keep pace with the dynamic changes in our digital world Organizations need a management approach that fits this environment and capitalizes on its opportunities while minimizing the related risks They need to execute their business strategy fast and reliably In effect they have to know how and when to modify or enhance their business processes which processes are the best candidates for intervention and how to move rapidly from strategy to execution This means organizations need to establish business process management as a real management discipline The importance of process innovation digital technology and people aspects process governance internationalization emerging processes and the unique situation in mid market organizations are some of the key topics discussed in this book It ends with a comprehensive case study and a discussion about what process engineers can learn from jazz musicians High Performance Through Process Excellence Mathias Kirchmer, 2011-08-22 Continuously changing customer and market requirements as well as new developments in information technology have become a dominating factor in today s business

environment To be successful enterprises have to adapt quickly to new opportunities and threats They have to take smart decision and execute fast Innovation and agility become important success factors The Management of Process Excellence MPE is the main enabler It helps achieving immediate benefits while building lasting process management capabilities MPE links strategy with people and technology based execution Service Oriented Architectures SOA Web 2 0 or cloud computing support this approach The right process governance including centers of excellence and knowledge assets in form of reference models increase the delivered value again The resulting next generation enterprise is ready for long term success The book discusses how business process management delivers real value in private and public sector organizations around the world It addresses executives and managers as well as educators and students [Oracle Blockchain Quick Start Guide](#)

Vivek Acharya, Anand Eswararao Yerrapati, Nimesh Prakash, 2019-09-06 Get up and running with Oracle s premium cloud blockchain services and build distributed blockchain apps with ease Key Features Discover Hyperledger Fabric and its components features qualifiers and architecture Get familiar with the Oracle Blockchain Platform and its unique features Build Hyperledger Fabric based business networks with Oracle s premium blockchain cloud service Book Description Hyperledger Fabric empowers enterprises to scale out in an unprecedented way allowing organizations to build and manage blockchain business networks This quick start guide systematically takes you through distributed ledger technology blockchain and Hyperledger Fabric while also helping you understand the significance of Blockchain as a Service BaaS The book starts by explaining the blockchain and Hyperledger Fabric architectures You ll then get to grips with the comprehensive five step design strategy explore engage experiment experience and influence Next you ll cover permissioned distributed autonomous organizations pDAOs along with the equation to quantify a blockchain solution for a given use case As you progress you ll learn how to model your blockchain business network by defining its assets participants transactions and permissions with the help of examples In the concluding chapters you ll build on your knowledge as you explore Oracle Blockchain Platform OBP in depth and learn how to translate network topology on OBP By the end of this book you will be well versed with OBP and have developed the skills required for infrastructure setup access control adding chaincode to a business network and exposing chaincode to a DApp using REST configuration What you will learn Model your blockchain based business network by defining its components transactions integrations and infrastructure through use cases Develop deploy and test chaincode using shim and REST and integrate it with client apps using SDK REST and events Explore accounting blockchain hyperledger fabric and its components features qualifiers architecture and structure Understand the importance of Blockchain as a Service BaaS Experiment Hyperledger Fabric and delve into the underlying technology Set up a consortium network nodes channels and privacy and learn how to translate network topology on OBP Who this book is for If you are a blockchain developer blockchain architect or just a cloud developer looking to get hands on with Oracle Blockchain Cloud Service then this book is for you Some familiarity with the basic concepts of blockchain will be helpful to get the most out of
