Digital Electronics By R P Jain Pdf:

Modern Digital Electronics R. P. Jain, 1997 Linking Theory and Practice of Digital Libraries Wolf-Tilo Balke, Koraljka Golub, Yannis Manolopoulos, Kostas Stefanidis, Zheyang Zhang, 2025-09-22 This book constitutes the refereed proceedings of the 29th International Conference on Theory and Practice of Digital Libraries on Linking Theory and Practice of Digital Libraries TPDL 2025 held in Tampere Finland during September 23-26, 2025. The 14 full papers and 11 finding papers included in this book were carefully reviewed and selected from 103 submissions. The papers are organized in the following topical Keynotes: Large Language Models, Scholarly Issues, Citation Management, Digital Archives, Digital Humanities and Cultural Heritage, Knowledge Graphs **DIGITAL ELECTRONICS PRACTICE USING INTEGRATED CIRCUITS** JAIN R P, 1988 Convergence of IoT, Blockchain, and Computational Intelligence in Smart Cities Rajendra Kumar, Vishal Jain, Leong Wai Yie, Sunantha Teyarachakul, 2023-12-12 This edited book presents an insight for modelling procuring and building the smart city plan using the Internet of Things (IoT) and a security framework using blockchain technology. The applications of Li-Fi and 5G in smart cities are included along with their implementation challenges and advantages. This book focuses on the use of IoT and blockchain in the day-to-day transparent and recorded activities of citizens of smart cities like smart citizen management. The future for upgrading the system as per technological advancements is also discussed. This book integrates IoT, blockchain, Li-Fi and 5G in smart city implementation, covers smart supply chain management using IoT, outlines the state of the art and sustainable implementation of smart cities and practical challenges, includes sustainable development of smart cities, presents detailed explanation of case studies of smart cities of developed countries and developing countries and their comparisons. This book is aimed at researchers and graduate students in Artificial Intelligence, Urban Planning and Information Technology Systems and Management **Networks and Sustainability** Andriy Luntovskyy, Mikhaïlo Klymash, Igor Melnyk, Mykola Beshley, Dietbert Gütter, 2025-09-30 This book explores advanced networking topics building on previous Springer books like *Intent based Networking 2022*, *Emerging Networking in the Digital Transformation Age 2023* and *Digital Ecosystems 2024*. It merges network technologies with sustainable development, energy efficiency, AI and smart apps. Topics include LLMs, ML, large scale distributed networks, QoS, IoT with cloud and fog ecosystems, smart grids and robotics. It emphasizes the synergy of smart apps, AI and computational intelligence. The book shows how advanced networks support sustainability, energy efficiency and inclusiveness focusing on data science, cybersecurity, user intentions and cost reduction, addressing key aspects like reliability, privacy, inclusiveness and accessibility. Suitable for students, professors and lecturers in networking, distributed systems, cybersecurity, data science and AI, it also serves as a research base and source of inspiration for professionals seeking new challenges *Use, Operation and Maintenance of Renewable Energy Systems* Miguel A. Sanz-Bobi, 2014-05-09 This book addresses the use, operation and maintenance of new renewable energy systems taking into account their integration in the current electrical markets and in

the new emergent uses of energy The book is based on practical experiences which present different perspectives about what occurs once an energy production plant based on sources of renewable energy is in production Questions to be addressed include how the energy produced is integrated into the current system of energy production what is its consideration in the electrical market what the impact is on society how differential the strategies of operation and maintenance are with respect to conventional systems of energy production etc

Artificial Intelligence Based Smart and Secured Applications Sridaran Rajagopal, Kalpesh Popat, Divyakant Meva, Sunil Bajaja, Pankaj Mudholkar, 2025-04-21 The six volume set CCIS 2424 2429 constitutes the refereed proceedings of the Third International Conference on Advances in Smart Computing and Information Security ASCIS 2024 held in Rajkot Gujarat India in October 16 18 2024 The 138 full papers and 43 short papers presented in these six volumes were carefully reviewed and selected from 667 submissions The papers presented in these six volumes are organized in the following topical sections Part I II III IV Artificial Intelligence Network and Cloud Computing Part VI Cyber Security Computer Application for Sustainability

Advanced Smart Information and Communication Technology and Systems Mykhailo Ilchenko, Leonid Uryvsky, Larysa Globa, 2025-07-28 This book highlights the most important research areas in Information and Communication Technologies and their impact on digital society and environment sustainable development namely the research in fields of Information and Communication Technologies artificial intelligence in ICT lunar missions maintenance security of data and services smart robotic systems implementation in the digital environment and mathematical modeling for practical and research tasks in communication and data processing fields provided by various groups of researchers from Germany and Ukraine in cooperation with scientists from different countries The presented studies contain a discussion on the use of multi cloud integration approaches in particular based on methods of deep learning practical implementation of the Internet of Things IoT the modern study of V2V Communication and research in fields of mathematical modeling in applied problems The book focuses on the basics of information and analytical activities in the digital global space to providing broadband Internet access without decreasing the quality of experience QoE level improving services provision and system architecture with improving security The study of modern communication and information technologies contains original works dealing with many aspects of their improvement and use for research that shows some effective technological solutions that can be used for the implementation of novel cloud infrastructure and radio electronics systems These results can be used in the implementation of novel systems and to promote the exchange of information in e societies Given its scope the book offers a valuable resource for scientists lecturers specialists working at enterprises and graduate and undergraduate students who engage with problems in Information and Communication Technologies as well as aspects of society and environment sustainable development

AI Technologies for Crop Breeding Jen-Tsung Chen, 2025-10-01 AI Technologies for Crop Breeding offers the latest insights into the use of artificial intelligence models to improve plant health and production Presenting applications of AI technologies in plant biology biotechnology and crop

breeding it explores practices for the mitigation of biotic and abiotic stressors as well as other plant growth challenges AI based technologies are expected to advance approaches to plant functional genomics and multiple omics resulting in smarter and more efficient crop breeding for next generation agriculture helping to address the challenges of the increasing human population and the globally changing climate AI tools such as machine learning particularly deep learning have been applied to predict chief players in complicated biological networks increasing the understanding of in depth mechanisms of plant pathogen and plant environment interactions Additionally responses of plants facing stress can be modeled using AI technologies and the resulting data are valuable not only to plant stress physiology but also for stress resilient and disease resistant crop breeding This book introduces AI technologies for studying plant biology focusing on machine learning and deep learning models for integrating multiple omics approaches and revealing the knowledge of plant functional genomes Technological advancements and emerging applications of machine learning and deep learning in genomic selection genome wide association study GWAS phenotyping and constructing phenomics and transcriptomics are also featured in this book AI Technologies for Crop Breeding is an ideal reference for researchers academics and advanced level students and professors in the fields of plant sciences plant stress physiology bioinformatics systems biology and crop breeding Reviews AI based technologies in crop plant functional genomics Presents integration of AI tools with high throughput omics Advances understanding of the potential impact of AI technologies in addressing the UN Sustainable Development Goals

Cybercrime in Social Media Pradeep Kumar Roy,Asis Kumar Tripathy,2023-06-16 This reference text presents the important components for grasping the potential of social computing with an emphasis on concerns challenges and benefits of the social platform in depth Features Detailed discussion on social cyber issues including hate speech cyberbullying and others Discusses usefulness of social platforms for societal needs Includes framework to address the social issues with their implementations Covers fake news and rumor detection models Describes sentimental analysis of social posts with advanced learning techniques The book is ideal for undergraduate postgraduate and research students who want to learn about the issues challenges and solutions of social platforms in depth *Digital Electronics Practice Using Integrated Circuits*
