Blackburn, 2020-07-21 Anne Blackburn explores the emergence of a predominant Buddhist monastic culture in eighteenth century Sri Lanka while asking larger questions about the place of monasticism and education in the creation of religious and national traditions Her historical analysis of the Siyam Nikaya a monastic order responsible for innovations in Buddhist learning challenges the conventional view that a stable and monolithic Buddhism existed in South and Southeast Asia prior to the advent of British colonialism in the nineteenth century The rise of the Siyam Nikaya and the social reorganization that accompanied it offer important evidence of dynamic local traditions Blackburn supports this view with fresh readings of Buddhist texts and their links to social life beyond the monastery Comparing eighteenth century Sri Lankan Buddhist monastic education to medieval Christian and other contexts the author examines such issues as bilingual commentarial practice the relationship between clerical and popular religious cultures the place of preaching in the constitution of textual communities and the importance of public displays of learning to social prestige Blackburn draws upon indigenous historical narratives which she reads as rhetorical texts important to monastic politics and to the naturalization of particular attitudes toward kingship and monasticism Moreover she questions both conventional views on traditional Theravadin Buddhism and the Buddhist modernism Protestant Buddhism said to characterize nineteenth century Sri Lanka This book provides not only a pioneering critique of post Orientalist scholarship on South Asia but also a resolution to the historiographic impasse created by post Orientalist readings of South Asian history *Popularizing Buddhism* Mahinda Deegalle, 2007-06-01 The first book to focus on the ritual practice of Buddhist preaching in Asia Popularizing Buddhism examines the role of preaching in Buddhist devotional life and its relationship to the vernacular Sinhala literature of late medieval Sri Lanka Blending ethnography textual and doctrinal studies and an analysis of untranslated Sinhala vernacular Buddhist texts Mahinda Deegalle traces the development of Buddhist preaching within the Sri Lankan Theravada Buddhist tradition He explains the preaching ceremony popularly known as bana and offers a rich depiction of preaching styles events and specific preachers

The book delves into the debates surrounding the preaching ritual's origin and its potential beginning and continuity within the bhanaka reciter tradition and explores the interactions between vernacular religious traditions of Sri Lanka with cosmopolitan Buddhism. Deegalle advances previous research on the transmission of Buddhist teachings by constructing a vivid picture of the way Sri Lankan Buddhist traditions have shaped the nature of Theravada Buddhism.

Locations of Buddhism Anne M. Blackburn, 2010-04-15 Modernizing and colonizing forces brought nineteenth century Sri Lankan Buddhists both challenges and opportunities. How did Buddhists deal with social and economic change, new forms of political religious and educational discourse, and Christianity? And how did Sri Lankan Buddhists collaborating with other Asian Buddhists respond to colonial rule? To answer these questions, Anne M. Blackburn focuses on the life of leading monk and educator Hikkaduve Sumangala, 1827-1911, to examine more broadly Buddhist life under foreign rule. In *Locations of Buddhism*, Blackburn reveals that during Sri Lanka's crucial decades of deepening colonial control and modernization, there was a surprising stability in the central religious activities of Hikkaduve and the Buddhists among whom he worked. At the same time, they developed new institutions and forms of association drawing on pre-colonial intellectual heritage as well as colonial period technologies and discourse. Advocating a new way of studying the impact of colonialism on colonized societies, Blackburn is particularly attuned here to human experience, paying attention to the habits of thought and modes of affiliation that characterized individuals and smaller scale groups. *Locations of Buddhism* is a wholly original contribution to the study of Sri Lanka and the history of Buddhism more generally.

Variants and Variance in Classical Textual Cultures Glenn W. Most,2024-08-19 Given the limited durability of most textual supports texts must be reproduced if they are to survive And given the proliferation over time of users practices and places which need to have access to the texts that are important for cultural institutions this is particularly true for authoritative texts But the reproduction of texts by traditional means either orally or by hand inevitably produces variations These variations can arise because of inattention confusion misunderstanding deliberate modification physical damage and many other factors In general the more a text is reproduced the more variations are likely to occur But although the fact of textual variation in

general is doubtless an anthropological universal the specific forms it takes and the specific attitudes to its occurrence seem to vary widely from culture to culture How variations develop in different cultures on the basis of which forms of scholarly practices collaborations and institutional frameworks what variants say about a culture s understandings of text authorship and collective authorship what happens when variants become creative and generate their own strands of tradition to what degree changes in transmission media and processes of distribution translations or the migration of texts into different cultural or institutional contexts can influence or be influenced by the development of variants these are the questions that this book addresses in a historical and culturally comparative perspective **Collected Wheel Publications Volume XV**
