Terror: The True Story of the Carmelite Martyrs of Compiègne William Bush, 1999 Recounts the dramatic true story of the Discalced Carmelite nuns of Compiègne martyred during the French Revolution's Great Terror and known to the world through their fictional representation in Gertrud von Le Fort's *Song at the Scaffold* and Francis Poulenc's *Dialogues of the Carmelites*. Includes index and 15 photos. More Information At the height of the French Revolution's Great Terror a community of sixteen Carmelite nuns from Compiègne offered their lives to restore peace to the church and to France. Ten days after their deaths by the guillotine Robespierre fell and with his execution on the same scaffold the Reign of Terror effectively ended. Had God thus accepted and used the Carmelites' generous self-gift? Through Gertrud von Le Fort's modern novella *Song at the Scaffold* and Francis Poulenc's famed opera *Dialogues of the Carmelites* with its libretto by Georges Bernanos, modern audiences around the world have become captivated by the mysterious destiny of these Compiègne martyrs: Blessed Teresa of St Augustine and her companions. Now for the first time in English William Bush explores at length the facts behind the fictional representations and reflects on their spiritual significance. Based on years of research, this book recounts in lively detail virtually all that is known of the life and background of each of the martyrs as well as the troubled times in which they lived. The Compiègne Carmelites, sustained by their remarkable prioress, emerge as distinct individuals struggling as Christians to understand and respond to an awesome calling, relying not on their own strength but on the mercy of God and the guiding hand of Providence.

[Translating For Singing](#) Ronnie Apter, Mark Herman, 2016-05-19 *Translating for Singing* discusses the art and craft of translating singable lyrics, a topic of interest in a wide range of fields including translation, music, creative writing, cultural studies, performance studies, and semiotics. Previously, such translation has most often been discussed by music critics, many of whom had neither training nor experience in this area. Written by two internationally known translators, the book focusses mainly on practical techniques for creating translations meant to be sung to pre-existing music, with suggested solutions to such linguistic problems as those associated with rhythm, syllable count, vocal burden, rhyme, repetition, and sound. Translation theory and translations of lyrics for other purposes, such as surtitles, are also covered. The book can serve as a primary text in courses on translating lyrics and as a reference and supplementary text for other courses and for professionals in the fields mentioned. Beyond academia, the book is of interest to professional translators and to librettists, singers, conductors, stage directors, and audience members.
